

## ARE WE TREATING THEM FAIR?

There are over 1000 new residents of Portsmouth, tax payers, residing at Atlantic Heights, and they are entitled to just as much as the rest of our citizens. Under the Government plan a modern school-house was planned there, but it was changed. There should be every possible thing done to make this part of the city thoroughly in keeping with the desires of its citizens.

## 4000 BERLIN STUDENTS PROTEST

Will Give Up Their Bodies Before German Officers Are Surrendered.

(By Associated Press)  
Berlin, Feb. 10.—Four thousand students of the University of Berlin met on the University campus at noon today to protest against the allied demand for extradition of those accused of war crimes. The students vowed to guard the persons demanded with their own bodies if necessary. The rector of the University who announced that he had destroyed the honorary diplomas conferred on him by American and English universities was among the speakers. After singing national songs the students dispersed. The out German colors hung at half mast from the main hall of the University during the meeting.

## President Wilson will Then Approve or Disapprove in the Threat of Two Million Going on Strike

### JOHNSON NAMED AMBASSADOR TO ROME

(By Associated Press)  
Washington, Feb. 11.—Robert Underwood Johnson of New York, author and editor, and one of the founders of the league to enforce peace, has been selected by President Wilson as Ambassador to Rome to succeed Thomas Nelson Page of Virginia, who resigned several months ago. The President is expected to send the nomination to the senate within a few days.

(By Associated Press)  
Washington, Feb. 11.—Director General Hines will make answer to the wage demands of the 2,000,000 railroad workers on his own responsibility and from the standpoint of the Railroad Administration and will then report to the President. It was announced today at the White House. Mr. Wilson then will approve or disapprove the decision. The conference between Mr. Hines and the brotherhood officers was to have been resumed this morning but at the appointed hour neither side was ready to go ahead and the meeting was postponed until 3:30 o'clock this afternoon.

### BROWN HAS CONFESSED TO MURDER

(By Associated Press)  
Ossipee, N. H., Feb. 11.—Geoffrey Brown, a farmer, who was arrested in Tamworth last night for the murder of Richard Dunn there on Monday, confessed today to the killing, according to county officials. During the home Monday evening, Brown said, he found Dunn talking with his wife, walked down the road to a clump of bushes, and shot him as he approached. In the local court today, Brown was held without bail for the May term of the Superior Court. In his confession Brown is said to have told of troubles in his home caused by visits of Dunn. When he found Dunn and his wife talking outside the Brown house he became enraged he said and decided to waylay him.

### ON TRIAL FOR KILLING TAX COLLECTOR

(By Associated Press)  
Sikowhagan, Me., Feb. 11.—John A. Burke, former deputy sheriff and tax collector, at Jackman, was placed on trial in the Supreme Court here today for the murder of Nelson W. Bartley, his friend and business associate. More than 100 witnesses from the back woods community in which Bartley was an influential figure were prepared to testify and sheriff John Mowers had a large force of deputies about the building because of the presence in town of many woolsten friends of the murdered man. Bartley disappeared on Oct. 15. He was last seen early that evening as he was leaving his hotel with Burke in an automobile. Three days later Bartley's body was found in what had been described as a liquor smuggler's cache in the woods along the road to Canada, two miles north of Jackman.

### TALKING OVER LIQUOR QUESTION IN COMMONS

(By Associated Press)  
London, Feb. 11.—The drink question was briefly discussed in both houses of Parliament yesterday. Earl Curzon told the lords that the bill on this subject to be introduced would contain provisions for shorter hours of sale. In the House of Commons the subject was alluded to by Sir Daniel McLean, who said "The fact that America has gone dry is an economic feature of the greatest importance to Great Britain." The liquor question will be debated in the House of Commons during the present week, according to reports. Lady Astor will speak on the topic, in which she is much interested.

### SOFT COAL SHORTAGE IN NEW ENGLAND

(By Associated Press)  
Boston, Feb. 11.—An acute shortage of bituminous coal was reported in many New England cities and towns today as a result of the freight tie-up during the storm last week. Schools and industries have been closed in some places and many hospitals and public buildings have only a few days' supply. Most of the places affected have coal ordered, and Gov. Coolidge and Mayor Peters have telegraphed Director General Hines asking for priority deliveries to this city.

### SCHOOLS CLOSE IN ROME—THE FLU

(By Associated Press)  
Rome, Feb. 11.—Schools in this city have been closed because of the increase in the influenza epidemic. There are 50 deaths on an average every day from this disease in Rome.

### EDISON'S 73RD BIRTHDAY CELEBRATED

(By Associated Press)  
Orange, N. J., Feb. 11.—Municipal buildings, places of business and private homes here, were decorated with flags and bunting today in honor of the 73rd birthday of Thomas A. Edison. The Mayor in a public proclamation extended to Mr. Edison the city's congratulations.

### WAR ENDED WITH GERMANY JANUARY 10

(By Associated Press)  
London, Feb. 10.—Announcement was made today that Jan. 10th was the official date upon which the war with Germany terminated. This date was fixed by a royal order.

### GERMANY TO MAKE PUBLIC NAMES

(By Associated Press)  
Berlin, Feb. 10.—The Government announced today that it would make public in instalment form the official list of persons denounced by the allies for extradition. As the alleged indictment of allied prisoners in German camps figures largely in the allied indictments the Ministry of Justice has ordered prompt investigation of the prison camp archives. The civil courts will be given full access to the records of the military courts which operated during the war and the Ministry has instructed the attorney general to requisition all evidence in the possession of the military authorities.

Stephen Dowey of Gates street in Hingham.

### ARRESTS IN BIG BOND STEAL

Sensational Capture of Those Who Planned It.

(By Associated Press)  
New York, Feb. 11.—The arrest of two brothers who were employed as broker's messengers today made a total of six men held in connection with what the police declare was a plot to steal \$6,000,000 worth of securities in the financial district and take them to Canada. Herbert Binora, 18 years old, was accused of stealing Certificate of Securities valued at \$1,150,000 which were entrusted to him to deliver to another firm, an hour after he got a job as a broker's messenger last November.

### DISTRICT FIRE CHIEF KILLED

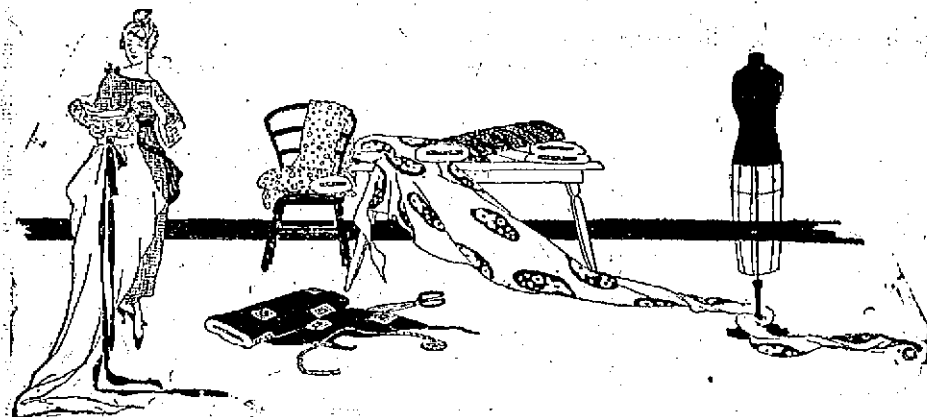

(By Associated Press)  
Worcester, Mass., Feb. 11.—District Fire Chief Hemenway and another fire man were killed today and nine others were badly injured when they were hurled under a falling wall that collapsed while they were fighting a blaze in the Royal Woollen Waste Store House Co.

### COLLEGE SUSPENDS CLASSES

(By Associated Press)  
Worcester, Mass., Feb. 11.—Because so many members of the faculty and students at Holy Cross College are ill with colds, the college suspended classes today until next Monday.

### TAXI SERVICE SUSPENDED AS PROTEST

(By Associated Press)  
London, Feb. 11.—This city is without taxi cabs today, owners having withdrawn them from service for 24 hours beginning at midnight as a protest against the increase in the price of gasoline.

## OFFERS TO SELL HER BABY BOY

### Mother Seeks to Provide for Child in New York.

New York, Feb. 10.—Mrs. Anna Kaplan, who was found wandering in the streets here ten days ago after a nervous breakdown, has been offered to sell her baby boy for \$100 (the mother's own words) to a couple that will care for him.

Weak and emaciated Mrs. Kaplan was taken to the jail at 302 Bleecker street, where she was found in a terrible plight, she said. Shortly afterwards, little Morley Kaplan was born. Now the mother seeks some way to provide for her infant. She came to New York to find her husband, she said.

## LARGENY OF WOOLEN GOODS FROM TILTON

Worcester, Mass., Feb. 10.—Harry Goldberg, aged 32, was arrested in the district court here today on a Governor's warrant charging larceny of woolen goods to the value of \$5000 from the Tilton Woolen mills at Tilton, N. H. He was taken back to the state by a local officer and Sheriff John O'Dowd.

## KITTERY

Kittery, Feb. 10.—A district exchange battle between the Kittery and the Woodford churches will be held at the Woodford church on Friday of this week.

The infant son of Mr. and Mrs. Harry Kaplin is quite sick. Roy D. Kerche of New Hampshire College in 1914 has been here. Edgar E. Brown of Oak Bluff is able to go out after an attack of the grip. Fred Hutter is able to go out after a few days' illness.

Placata Chapter, No. 90, O. E. S. will meet this evening and after the meeting there will be a Valentine party. Charles Weeks of Dune street is restricted to the house by illness.

The 14th quarterly conference will be held next Monday evening at the town M. E. church, at the close of the meeting of the Plymouth Social Union.

Solwyn Caswell remains quite ill at his home at North Kittery. Maurice Dutil of Government street has been in the past few days. Mark Hutter has returned from a few days' visit in Manchester.

Word has reached here of the safe arrival at Pella Island, S. C., of Robert Stanley and family. Mrs. Maurice Dutil of William, avenue is ill.

Miss Marion Pettis, Red Cross, Pub. Health Nurse, who has been very ill the past two weeks at her home in Portsmouth, is somewhat improved and has gone to her sister's home in Northwester Harbor, Me., where she will rest and be cared for until she is able to return and again take up her duties here and in Elliot.

Mrs. John Hoffman died at her home in Portsmouth on Tuesday morning. She is survived by her husband, two children, and several brothers and sisters.

children, and several brothers and sisters, one of whom is Henry Thompson of Otis avenue. Mrs. Hoffman was a frequent visitor here and has many acquaintances here who are sorry to hear of her death.

Mrs. Robert E. Lennah has taken a position at J. P. Sugrue's hotel.

Mrs. William H. Naylor is confined at the home of her brother by illness. Mr. George Hoberger had his left arm quite badly burned while at work at the navy yard last Saturday.

Kittery, Feb. 10.—The remnants of the army of General Yudenitch, who was defeated by the Bolsheviks, had fallen when he had almost reached the gates of Petrograd, according to a cablegram received today from Basile Maklakov, representative of the anti-Bolshevik forces in Paris, which was made public by the American Central Committee for Russian relief. All that is left of General Yudenitch's forces are 2000 officers and 18,000 men, and of these, the cablegram says, there is not a single man who is not infected with typhus or some other disease.

At the meeting of the committee on Tuesday evening, the cablegram read, "We might perhaps rescue 8000 men. Admiral Homemko has no transport at his disposal. We are waiting for some in England. No definite reply as yet."

There will be a meeting of Henry Wallingford Post, American Legion, at the fire house, Kittery, Thursday evening at 8 p. m.

Edwin F. Wiggin, son of Mrs. Samuel Y. Davis who has been teaching manual training in the Portland, Me. high school, since returning from duty in the service in France, has accepted a similar position in Berlin high school and will commence his duties there next month.

TELEGRAPH BITS

(By Associated Press)

London, Feb. 10.—London's underground railways transport 4,000,000 passengers daily. It was stated by Sir Albert Stanley in an address as chairman of a meeting of subway workers. The vehicles controlled by the roads make a total journey every day equal to 20 circuits of the earth.

Portsmouth, England, Feb. 10.—The battleship Renown has been fitted out here to carry the Prince of Wales on his Australian trip. Additional cabin space has been made and a steam laundry installed.

London, Feb. 10.—Glassware production on a huge scale by American machinery is to be undertaken by a company which has just absorbed half a dozen big glass-making concerns in the industrial center of England known as the "Black Country."

At Stourbridge, Dudley and Tipton new factories will be built where American patents for turning out the cheaper class of glass-blown goods will be utilized. Before the war this kind of trade was virtually a monopoly of Germany and Austria, and the crippling of the latter's industries has caused the prices of the commonest glass household articles in England to soar tremendously.

Royal, Bathonia, Feb. 10.—Bethonia has taken energetically to shipbuilding. A small fleet of wooden ships has already been launched, and three steel motor ships are being built of American steel at Royal.

(By Associated Press)

Tokio, Jan. 19.—The Japanese budget for the next fiscal year amounts to the equivalent of about \$537,972,011. An increase equivalent to about \$100,000,000 is asked by the army and the navy.

The minister of finance has stated that it is highly important to strengthen the national defense in order that peace may be preserved and the mechanism of communication developed. Substantial increases are also called for in the departments of education and communication.

Referring to the naval expenditures it was explained that in the extraordinary expenditures of the navy, estimates have been included for the completion of the so-called "eight-battle" cruisers. The proposed naval scheme will cost about \$376,972,000 of which \$40,000,000 appears in the budget for the coming year.

It is proposed to begin the construction of the following warships: Four battleships, four battle cruisers, twelve cruisers, thirty-seven destroyers, five gunboats, twelve special service ships, six mine sweepers and a number of submarines.

The increased expenditure will be met principally by heavier income tax which will advance over that of last year by approximately \$22,000,000. The tax on sake, the Japanese national drink, which is made from rice, will also be increased.

The shortage in the revenue will be made good by the temporary suspension of the redemption of the national loan.

London, Feb. 10.—A bay horse with a cloven foot is exciting much interest in the world's fair here. The horse is the offspring of a shire stallion and a Welsh mare, and it is suggested that his toes indicate a reversion to his prehistoric ancestors. Prehistoric horses had three or more toes on each foot. One of the earliest members of the horse family Phenacodus, is said to have had five toes on each foot.

## ATLANTIC HEIGHTS

A son was born recently to Mr. and Mrs. John Hanton of Crescent Way. Lewis Hill has been discharged from the Portsmouth hospital where he recently underwent an operation for appendicitis, and is visiting at the home of Mr. and Mrs. Fred Shaw on Broad street. His many friends will be pleased to see him soon return to his position at Shaw's Branch.

Mrs. McBride is confined to her home on Crescent Way by illness. Mildred Kevers has entered the Atlantic Heights school, her parents having lately moved to the Heights.

Henry Mace has taken employment at Shaw's Branch.

ENLISTED MEN GOT 63 P. C. OF MEALS.

Washington, Feb. 11.—Enlisted men of the army received 63 per cent of the meals awarded for service in the World War. It is shown in statistics made public Tuesday by the War Department.

To enlisted men went 57 out of the total of 78 Congressional Medals of Honor awarded, while 3593 out of the 6109 Distinguished Service Crosses conferred were given to enlisted men. All of the 611 Distinguished Service Medals awarded for meritorious service and not for acts of valor, were conferred on officers.

LOT A \$4.50 LOT B \$5.50 LOT C \$6.50

## INDIAN DIVISION FOR THE ARMY

Washington, Feb. 11.—A proposal to organize one or more full divisions of Indian troops as a part of the re-organized army and to be known as the North American Indian division or divisions is pending in Congress as part of the army reorganization legislation.

Many instances of exploits of personal heroism on the western front, such as won for the Red Men the nickname of "Savage Hunters" because of the deadly accuracy of their rifles in sniping contests with Germans, were furnished the committee as evidence of valuable manpower which it is contended would be wasted if the Indians are denied a place in the army scheme.

Experiences at scouting and patrolling, particularly at night and in unknown territory, displayed for personal danger under fire, and unflinching loyalty, were among the soldierly qualities the Indian was described as possessing in an unusual degree. Specific cases are cited by Joseph Kossuth Dixon, secretary of the National American Indian Memorial Association, of which Rodman Wasmaker of New York is president. Dr. Dixon also read a letter from General Pershing giving his "heartily approval" to a plan to enlist Indian regiments.

A majority of the more than 17,000 Indians who saw military service during the war were members of the 36th Division, the Texas and Oklahoma National Army Division, the 36th Division National Guardmen from the same two states, and the 165th Infantry, by old 10th New York which received heavy Indian replacements to fill the gaps produced in the ranks by fighting in the Meuse. But the Redskins served in many other units and in practically all services.

Dr. Dixon declared that after visiting numerous camps and hospitals, all "indicated," interviewed, from the commanding officer to the corporal or private, that they had Indians under their command, with one accord rendered universal and enthusiastic commendation of the brilliant, the sta-

bility, the amenability to discipline, the heroism and valor of the Indian as a fighting force in our American army and navy.

Major Tom Kelley, who commanded the 3rd Battalion of the 165th Infantry, was quoted as saying that the Indians were "the best and safest replacements we had at any time."

"They were expert in rifle fighting, game, strong, brave, resourceful," Major Kelley said. "They were superior in scouting and patrolling. They were unexcelled in every phase of every fight."

"I have no hesitancy in recommending any one of my Indians for a first sergeant, or even a captaincy. I had replacements on eight different occasions, so thorough was the determination of my units, and these Indians were unquestionably the very best replacements sent me. Many of them were killed or wounded, for they always sought the dangerous places. I advocate the segregation of Indian troops, for I noted that when they were sent out as a distinct Indian force they did their best work."

An instance of how the Choctaw dialect of men under the command of Lieutenant Colonel William J. Morrissey, of the 142nd Infantry, proved of value in dodging the German "listening-in" system, was related by Dr. Dixon. In October 1918, preceding the armistice, when the 142nd Infantry was in front of St. Etienne, on the Champagne front, the Germans detected American troop movements by tapping wires. To avoid this, Colonel Morrissey organized a signal square of Choctaws to transmit the messages in their original dialect. "This barbed wire conversation," Dr. Dixon said, "was a barrier that nullified the Germans."

In working the "code," it was found that there were no words in the Choctaw tongue for many military technical expressions, and it was necessary to make up a table of substitutes, such as "one grain corn" for "first battalion" and "arrows" for "ammunition."

Dr. Dixon's plan proposes the establishment of permanent regimental or battalion headquarters on or near important reservations, a system of schooling on or near reservations for the purpose of preparing Indian youths for a military career and duties or citizenship, and a higher school to be known as the Indian West Point, for instructing Indians in the duties of

non-commissioned officers to enter regular officers' schools.

Other sections of the measure would declare all Indians of one-eighth or more blood, who shall have reached the age of 21 years, or who shall have taken the prescribed oath of a regular soldier of the United States, to be full citizens of the United States. Subject to a reading and writing test, after 1929 all Indian graduates of the reservation would be declared full citizens on reaching 21 years of age.

Testifying before the House Committee, Dr. Dixon charged that the commissioner of Indian affairs does not believe in Indian citizenship, and that he had prohibited the delivery to Indians, in some sections of copies of testimony before the House Military Committee in 1917, when Dr. Dixon argued for the recruiting of ten or more regiments of Indian cavalry for use in the war. Under a ruling by the Attorney General, the Commissioner of Indian Affairs was held to have the same power of regulation over the mail of Indians as the warden of a penitentiary in preventing the delivery of mail to convicts.

"I ask you, to note," Dr. Dixon said, "that the Indian, in the majority of cases a ward of the government, was treated as a convict but still was considered worthy of being drafted."

The Secretary of War opposed the organization of the Indian regiments in 1917 on the ground that he did not favor segregation of troops according to race.

## GILLETTE NOT WORRYING OVER A. F. OF L.

Washington, Feb. 10.—Speaker Gillette today said that he was not in the least disturbed by the news that his name had been placed upon the black list by the American Federation of Labor. He said that the workmen of his district were "level-headed men, whose votes are not carried around in the pocket of any labor leader or capitalist. They think and vote as they see fit without any outside advice."

### A DIFFICULT JOB

If you ever have to pluck feathers from a bird or fowl, remember the following hint, it will lighten the task considerably.

When plucking the breast pinch a fold of the flesh between your thumb and fingers; the feathers will come away quite easily without breaking the skin. The same idea may be carried out all over the bird. This is for dry plucking and should be done as soon as possible after killing.

Since 189, there has been a five-Sunday February in 1824, in 1862, in 1880 and in 1920. The next one will be in 1948.

## SEES IN HOOVER G. C. P. MENACE

Duluth, Minn., Feb. 11.—Herbert Hoover and the League of Nations are likely to exert considerable, if not decisive, influence in the coming presidential election, former President William Howard Taft declared here yesterday in a political discussion with a group of prominent Duluth citizens. Mr. Taft was here for an address last night under the auspices of the American Legion.

"Mr. Hoover has declared that he is with the party that supports the League of Nations," Mr. Taft said, "and should be nominated by the Democrats and the Republicans choose to make the league his issue. Mr. Hoover would poll many Republican votes. I will not go so far as to say this attitude would result in splitting the Republican party, but it might spell defeat instead of victory for the Republicans in the presidential contest."

## SMALL FRUITS IN THE BACK YARD

The high price of berries of all kinds during the past season should induce everyone with a little space at hand on the home grounds to grow his own small fruit crops, which can be grown in any soil which will grow a good crop of ordinary vegetables.

By bush fruits we mean the raspberry, blackberry, blueberry, winelberry, gooseberry and the currant. These fruits are well known to everyone but few of them are grown in our home gardens for home consumption, although in the gardens of our grandmothers they always had a place.

These bush fruits are divided into two main families, the raspberries and the blackberries. The raspberries have a place in every garden, a row of each being grown, but the black crop should be of such kinds as may best meet the requirements of the home table. The raspberries usually consist of the red, black, pink and yellow kind all requiring the same general treatment.

The yellow raspberry is used almost entirely for family use, as a dessert fruit, but is also popular as the cherry. It is rarely used for canning and preserving. The red and black ones are in greatest use among those who are fond of this delicious fruit. The black raspberries are commonly known as "black caps" and the red berries "red caps." These two kinds are the ones which are grown so extensively by the professional grower for the market, and choice fruits usually demand a ready sale.

The pink raspberry is grown almost entirely for canning purposes, for which it is considered the best variety, the berries being more pulpy and have fewer seeds than any other. You should at least have a dozen plants of each kind in your fruit garden or other suitable place which will enable you to enjoy these fine fruits for several weeks each season, provided you arrange your selection of varieties to prolong the season as much as possible.

The soil for bush berries should be the best possible, thoroughly prepared, well manured, deeply dug and made fine and malleable. It will be well to order at once your young plants or roots of bush fruits and get them from a reliable dealer so as to be assured that they will be true to name, vigorous and with a large mass of fibrous roots. For garden culture it will pay to get the best obtainable plants. In the home garden the raspberry is best grown by the trellis system. The trellises being six feet apart and the plants two feet apart in the rows, forming a continuous row system, which usually gives one-third more fruit than the out-of-date hill system.

Before setting out the plants, if it has not been done by the dealer, cut them back within six inches of the ground. The trellises are made by setting posts twenty feet apart in rows on which should be run a wire three and a half feet from the ground to which to tie the fruiting canes when they reach it. You will find this method both convenient and cheap and resulting excellent results. When growing raspberries by the trellis system cut the canes back to five feet from the ground, and the lateral sprouts to 15 inches in length.

"ON WITH THE DANCE" AT PARK THEATRE.

Daring and unusual situation abound in "On With the Dance," the Paramount Arterial superproduction featuring Mae Murray and David Powell, is being presented at the Park Theatre, Boston, as the feature in a very elaborate program, which marks the new change of policy which includes a new galaxy of prices. Because of the frank way in which the intensely dramatic high drama, a New York social life are shown, "On With the Dance" is bound to create a furore. Among the big dramatic moments of the piece are: the scene where Sonia, a young Russian lady, does a dramatic dance on the deck of an ascending liner, entering New York Harbor, where Sonia, in the light of her past, dances in her bosom for her admirer, to be interrupted

unexpectedly by the entrance of her inhibited husband, where Sonia, the "mysterious masked lady" of a big Broadway cabaret is found by her husband, who shoots and kills the admirer and the final scene, where to save her husband Sonia takes her life story, and risks her own reputation.

Mae Murray, remembered best perhaps by patrons of revues, as the big hit of a recent edition of the Ziegfeld Follies, and to photography devotees by artistic work in many productions, shows that she has lost none of the charms which endeared her to Broadway's most fashionable beauty circles. David Powell is well known through his excellent work in a number of recent screen successes.

Assisting these two capital artists in a company of the usual high standard demanded in all Paramount-Arterial productions, "On With the Dance" is staged lavishly and from every point of view will satisfy the most exacting of photoplay goers.

### Bryan as a Vote-Getter

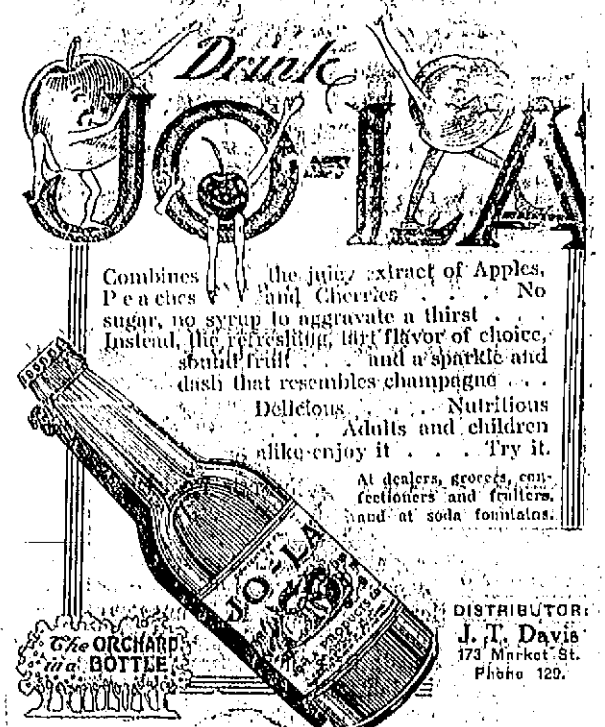

(From the Washington Post)  
"It is almost generally accepted among Democrats in the West—and I may say Republicans take the same view—that Mr. Bryan will be an active candidate for the Democratic nomination, of Colorado. 'We are familiar with his methods. He is pursuing the same tactics he used in former years. The fact that he was beaten by 760,000 votes in 1896, when he himself declared, as he did to the late Senator Hill, of New York, that he would carry every State in the Union by 1,000,000 votes in 1900 and by 1,500,000 in 1908 means nothing to Mr. Bryan. His hopes spring eternal. I have no doubt that he actually believes he would be the strongest candidate the Democrats could name, and there are some who take this same view. Indeed, Bryan would doubtless get most of the votes of the disgruntled persons who would poll a big prohibition vote. At the same time he would not get the support of the citizens of foreign birth, who can not and never will be able to comprehend why they are prohibited from having their beer or the light which

they have been used to at their homes."

Sure Way to Perpetual Peace  
(From the Detroit Free Press)

The anti-baby statute by the Socialist administration of St. Louis, which the funny bone there is holding more thoroughly self-consciously than a cat curled effort toward race suicide, the more successful such a movement is, the more quickly it destroys itself. It merely removes the baby of adversity from the heap and leaves more room for people who hold different views.

Doubtless it also anti-baby movement were thoroughly successful in removing their beer or the light which

**JO-JO-LEA**

Combines the juicy extract of Apples, Peaches and Cherries. No sugar, no syrup to aggravate a thirst. Instead, the refreshing, tart flavor of choice, substantial fruit and a sparkle and dash that resembles champagne.

Delicious. Nutritious. Adults and children alike enjoy it. Try it.

At dealers, grocers, confectioners and fruitlers, and at soda fountains.

## Rural Police Work.

A member of the Massachusetts Legislature is advocating the establishment of a body of officers to be known as a state constabulary to police the rural districts of the state. He points out that such forces are maintained in several of the states and claims that the benefits fully warrant the necessary expense, which is considerable, the cost to Pennsylvania, which employs 425 men, being about \$500,000 a year.

The claim is made that such a force serves a very useful purpose in the rural districts, which are without the protection provided by regular police forces in the cities and large towns, and it is understood that the plan has worked well in the states where it has been adopted. In most cases the officers are mounted and are thus enabled to move from one locality to another on short notice.

Just how practical and valuable this sort of police work would be is a question to be studied by those to whom it is presented, and it should be possible to gain useful information on the subject from the states that have tried it.

It would seem that the mere fact that a police force was patrolling the rural districts would in itself afford some protection. The criminally inclined have a natural antipathy to officers of the law and do their best to keep out of their way. While it is true that the authors of most of the serious crimes committed in rural communities are apprehended sooner or later, the presence of state officers should serve to expedite this work, in addition to preventing the commission of many crimes which would be less apt to be attempted if it were known that the sleuths of the law were close at hand.

It is urged that in addition to their regular work these officers could serve a useful purpose in enforcing the automobile laws on the country roads, where they are apt to be flagrantly disregarded. It is easy to comprehend the advantages that should be derived from such a system of policing wherever it can be maintained at a reasonable cost and made a real working force, and not an asylum for political henchmen looking for soft berths. A state constabulary degenerating into that sort of an arrangement would have small practical value except as a means of removing a little more money from the pockets of the tax payers and placing it in those of the beneficiaries of the "system."

However, the project would appear to be worth investigating, not only in Massachusetts but in all states where it has not been taken up. It should be easy to learn the practical workings of the system in the states where it is in force.

Anything which will enhance the peace and security of rural communities is well worth having, provided the cost does not come too high. The tax rates in most communities are such that the residents are properly opposed to any needless increases, while ready at all times to meet the cost of actual and necessary services.

A straw vote of the Republican members of the recent state constitutional convention showed a large majority to be in favor of General Leonard Wood for president, with Governor Coolidge of Massachusetts as second choice, and scattering votes for numerous other aspirants. Those voting were almost unanimous for the re-election of United States Senator George H. Moses. While straw votes settle nothing, "Straws tell which way the wind blows."

The recent great storm resulted in considerable isolation in places, and this city had a touch of it for a short time. But things are looking better now and all are hoping there will not be another such "dose of weather" this season.

Four car loads of whiskey from Louisville, Ky., recently arrived in New York for "medicinal purposes." The consignment found John J. Quigley, assistant federal prohibition agent, in good health and was promptly placed under guard and escorted to a bonded warehouse. The lid has not been entirely lifted by the "flu."

The Democrats of North Dakota appear disposed to play safe. They are reported to have endorsed the leadership of both President Wilson and William Jennings Bryan.

It is a little early, but the Massachusetts State Board of Agriculture evidently believes in being on time. It reports that the peach crop in that state has been practically ruined and that extensive damage has been done to the crop in Connecticut.

The inventor of the electrical device with which bottles of "bonded" whiskey can be tapped, emptied and refilled with any sort of "slush" must curse the luck that prevented his achievement at a time when it would have been worth something.

The trolley lines have had their troubles of late, but on this occasion these were not due to competition by the jitneys.

Italy has been seriously disturbed of late by a great railroad strike. It is evident that trouble is no respecter of nations.

## EDITORIAL COMMENT

## Leaving a Leader

(From the Los Angeles Times)  
Thirty thousand California club women signed the petition asking the Senate to immediately ratify the covenant of the League of Nations. The women's vote used to be the big asset of Wilson Johnson, but they cannot follow him in his fight against a world league of peace.

## A Cardinal on Sunday Sports

(From the Boston Transcript)  
Cardinal Gibbons' view of Sunday sports should be commended to the legislators of Massachusetts, who are perennially asked to suppress out-door Sunday sports, even to the boys' baseball on the vacant lot. There is plenty of sound public policy, as well as religion, morality and public policy in the cardinal's view that those who take part in or witness out-door exercise and sports on Sunday will "see a picture that will move them to the worship of their Creator."

"The legislators should take this idea home with them and think it over. 'Ia bene et ore,'" the old churchmen said and doubtless if they had such a hint in their day, they would have said also, "Iaure est orare." We may play by playing nicely, and beneficially, as well as by working."

## The Wilson Democrats Now Have Their Chance

(From the New York Sun)  
The Democratic Senators who obeyed President Wilson's commands last December to vote down the treaty when Chairman Lodge succeeded in bringing it up for ratification with the reservations have been clamoring for another chance no one is to put it thru. Now they have it. Yesterday the Senate overwhelmingly voted for a suspension of the rules and reconsideration of the covenant. Again the treaty, the league and the reservations are in the hands of the Foreign Relations Committee, which itself is under instructions to report them out immediately for final action by the Senate.

For Senator Hitchcock and his party associates, if they have been honest in their appeals, there is nothing left but to vote for what Mr. Lodge's leadership offered them last December when they buried it under an adverse vote. For the Republican there is only the choice to give the Democrats the ratification with the Lodge reservations which was offered to them then. We say this with no thought that the treaty is ideal or desirable. On the contrary, it is a cumbersome, doubtful document of interminable length. The Lodge reservations can lessen some of the dangers of the covenant but President Wilson will it and made it; but no reservations ever could make that covenant what it ought to be.

It would be much better to have a new treaty, shorter, clearer, more practical. But we make no protest now against the thing, now as it is, if it can be disposed of without endless negotiations and debate and without weakening the safeguards of the Lodge reservations, such as they are by one iota.

If this treaty has to go thru let it go then with the Lodge reservations exactly as they stood on the December day the Senate refused to ratify. On no other ground can the patriotic members of the United States Senate find solid American footing.

The republican Senators who have stood so firmly for the independence of the nation and the preservation of its institutions must not permit the reservations to be patched up and revamped. While months of new tinkering with them could not make them better than they are, the reopening of the safeguarding provisions would surely expose the instrument to fresh evils and dangers. Rather than invite them, rather than run the risk of them, it would be better to dynamite the whole thing.

## YACHT RACE DATE JULY 15

(By Associated Press)

London, Feb. 11.—The first race for the Americas cup in the international regatta between Sir Thomas Lipton's challenging yacht Shamrock IV and the New York Yacht Club's unnamed defender will be sailed on Thursday, July 15, according to an announcement made here today by the Royal Ulster Yacht Club, of which Sir Thomas is a member.

## WOMAN'S CITY CLUB NOTES

The Activities Committee of the Woman's City Club has arranged to have Mr. George Gleason address members and invited guests, including gentlemen, on Thursday evening, Feb. 12, at 8 o'clock, in the Woman's Building. Mr. Gleason has been identified with Y. M. C. A. work in Japan for more than 18 years, and his story will undoubtedly be of more than ordinary interest, since the work naturally is varied and diversified because of the climate, conditions, and life in general of the people in the land he has called home for so many years.

On Friday afternoon, the Club will conduct a Valentine card party at the

Woman's Building, the features of which will be typical of the season, and in addition to the opportunity for indulging in various games, refreshments will be on sale. The card party will be continued throughout the evening, and the committee in charge urges that all members who cannot attend afternoon affairs be present on Friday evening, and also extends a cordial invitation to any women of the city who are interested in becoming members to attend the gathering.

## 10 YEARS FOR REVOLUTIONARY ARTICLES

(By Associated Press)

New York, Feb. 11.—Five to ten years in state prison was the sentence imposed in the Supreme Court today on Benjamin Gitlow, former Bronx assemblyman who was convicted of violating the state criminal anarchy statute. The charges were preferred as the result of articles advocating the overthrow of government, by force which appeared in the Revolutionary Age, of which Gitlow was business manager.

## PRECAUTIONS PLANNED AGAINST FLU

The "flu" has hit Portsmouth good and hard the past two days and there is no use in trying to pass the matter over. The type of the disease at the navy yard is most dangerous and it is time some precautions were taken to check its spread. The question of additional hospital facilities is already being considered.

## 3 MISSING "SUBS" REACH NORFOLK

(By Associated Press)

Washington, Feb. 11.—Three American submarines which failed to reach Norfolk yesterday from Bermuda with their tender, the Eagle 17, arrived there early today, the Navy Dept. was advised. The vessels were believed to have been delayed by the recent storm.

## THE HERALD HEARS

That laundry help is said to be almost as scarce as during the war.

That the Advance, a newspaper printed in Benton County, Ark., had the following: "A. N. Barber came into our office Monday morning and boasted of having fresh eggs for breakfast. And to prove this statement he exhibited small particles of the yolk on his whiskers."

That Canadian money in some United States cities is as about as popular as the croquet was on the American soldier in France.

That police officer John Weston has returned to his beat after a short illness.

That the weather forecast for March is not encouraging according to the dunnage.

That the Ottumwa Courier, advertising for a singer, had the following ad: Wanted—A conscientious person to sing soprano in a church choir.

That the chief of that burg has got some job to find such a singer.

That the Irish bond sales have reached the \$2000 mark in Concord.

That the radio station at the local navy yard should be improved to bring it up with others on the New England coast.

That while other stations have been advanced in power and equipment, the local station is not much better than it was at the time it was established.

That Senator Moses and other New Hampshire representatives in Washington are kept busy with correspondence from this city which is said to be mostly from organized labor.

That Judge Sawyer of the superior court now sitting at Exeter may sit for a short period in Portsmouth next week.

That in many streets of the city the residents believe in letting the One who put the snow on the sidewalk take it away.

That Provincetown, Mass., voted against prohibition, the first time in 200 years, and yet the people do not care.

## WILL CONDUCT WEEK-END MEETINGS

Captain and Mrs. William J. Lawrence of Keene, formerly in charge of the Salvation Army in Portsmouth, expect to pass Saturday and Sunday in this city and conduct meetings at the Salvation Army. Since going to Keene for duty they have done able work in the organization in that city. Since the watch night service, 42 people have professed conversion at their meetings and they feel much encouraged in their work.

## PLOT TO STEAL \$5,000,000

## Mail Street Messengers Planned Dash to Canada.

New York, Feb. 11.—After the arrest Tuesday of three young men charged with the theft of \$2500 in securities from a messenger the police gave the lurid details of what they said was a plot to steal \$5,000,000 worth of bonds in a single cleanup, to be followed by a flight to Canada and lives of luxury for the plotters.

According to detectives who made the arrests the plot involves a "ring" of dishonest Wall street messengers. The plotters the story went, were to wait until large sums of securities were entrusted to their care, pool them and then dash across the international line. How all the dishonest messengers were to get large amounts of securities into their possession simultaneously was not disclosed.

The detectives declared the plotters had obtained one opportunity to get away with \$500,000. The police said their information came from honest youths who had been approached by the conspirators.

## OBITUARY

## Mrs. Addie V. Hoffman

Mrs. Addie V. Hoffman, wife of John W. Hoffman, passed away at her home 76 South School street Tuesday morning after an attack of the flu.

Mrs. Hoffman is survived by her husband, three daughters, Mrs. Doris Hartone, and Ruth and Thelma Hoffman, also five sisters and four brothers.

The funeral services will be strictly private.

Two of the daughters are very ill with the same disease.

## Fred Neal Holmes

Fred Neal Holmes passed away at his home on the Winfield Road in Greenland Tuesday forenoon, aged 63 years. Mr. Holmes is survived by his wife, one son, John P. Holmes and one sister Mrs. Elizabeth Gowen of Pasadena, California.

## Mrs. Cecil Thistle Downing

The sad news was received here this morning from Chicago, Colorado, announcing the sudden death there of Mrs. Cecil Downing. Her maiden name was Thistle and she was a graduate of the Portsmouth Hospital. They left here about a year ago to take up their residence. While here they resided on Broad street and also lived in New Castle. Mr. Downing was for a number of years employed on the navy yard.

## William E. Saunders

William E. Saunders died at his home 322 Hanover street, Tuesday noon. He is survived by a widow, one daughter Ethel S. of this city and a son William A. of Nashua, four brothers and one sister in the West.

## Daniel J. Sullivan

Daniel J. Sullivan, infant son of Timothy and the late Mary Pavey Sullivan, passed away at the home of Mr. and Mrs. Daniel Whaley, 100 Stark street, Tuesday night, aged five months.

## Miss Louise Wade

The death occurred on Monday at her home on Bataw street, Lawrence, Mass., of Miss Louise Wade, and the news will be heard with much sorrow by the friends of that young lady in this city. Miss Wade was the daughter of City Clerk Edward Wade of Lawrence, and one whose pleasing personality endeared her to all. She has been in poor health for some time but was not daily and her death came as a great shock to her parents and friends. She became very ill a few hours before she died and never regained consciousness.

Miss Wade has frequently visited this city as the guest of Miss Barbara Plummer of Bellingham street and was acquainted with a large number of the local young people. Her age was but 19 years. She is survived by her parents and four brothers. Her funeral will be held in Lawrence on Thursday morning.

## NAVY YARD NOTES

## Two More Eagles Coming

Two more Eagle boats, Nos. 2 and 3, have been ordered to the local yard. The boats have been cruising in the Mediterranean sea and were reported as sailing for home from the Azores in January.

## Lost Big Job at Boston

The department has rescinded the order sending the transport George Washington to the Charlestown yard and in her place has ordered the Rathlow to go there for overhauling.

## Invitations to the Men

Harry Lander, the well known comedian, has sent out 500 invitations to men on the Charlestown yard to witness a special performance at the Grand Opera House, Boston.

## First Games at Armory

A large crowd of ship's men from the yard witnessed the first games of the basketball series at the state armory on Tuesday night. The winning

team put it all over the five from the Destroyer Striking by a score of 41 to 16. The Marine barracks team played a fast game and handed out a defeat to the men from Eagle 16 with a score of 38 to 15. The next games will take place on Feb. 17, when the Huntington will go against the Marines and the Eagle boat second team will rough it up with the Gridley men.

Total of 51 This Month  
Eleven prisoners will figure in restoration at the naval prison during the present month and forty will be discharged.

At Yard for a Few Days  
Thomas F. Durning, navy medal expert arrived at the yard today from New York on matters connected with the routine of the smelting plant.

One Mechanic Six Helpers  
The labor board made a call today for a sheet metal worker and six sheet metal workers helpers for the Industrial Department.

No Trucks in Use  
The snow has not yet been cleared from the yard highway sufficiently to allow the use of the trucks of the several departments and all yard trucking continues to be carried out on runners.

Business in Washing on  
Lieut. Commander Thomas Mott Osborne is on a business trip to Washington.

To Examine Former Chiefs.  
The Bureau of Navigation has notified all commands to examine officers with temporary rank who previously were chief petty officers, for permanent appointment. The amount of sea service rendered while holding temporary rank will be considered in examination.

For the S-S.  
John L. Welch, chief electrician from the U. S. S. Fulton, has been ordered here for duty on the Submarine S-S.

## TO PLAN FOR DRIVE

Captain Fletcher, U. S. A., district recruiting officer and stationed at Portland, Me., was in this city Tuesday to make arrangements for a recruiting drive to be held the week of Feb. 23. While in this city he called at the office of the Chamber of Commerce asking for its support in the drive.

## MITCHELL CLEMENTS

The marriage of Florence Lillian Clements of this city and George L. Mitchell, a soldier stationed at Fort Constitution at Newcastle, recently took place in this city. Rev. Percy W. Caswell of the Court Street Christian church officiating.

John D. Randall is quite seriously ill.

Hot Cream Tartar Biscuits—Out Every Hour

# OPEN THREE NIGHTS' BAZAAR FOR CLERGY OF DEVASTATED FRANCE

PAROCHIAL SCHOOL BUILDING—WHERE THE BAZAAR IS BEING HELD

A three nights' bazaar for the benefit of the Catholic clergy of devastated France, under the auspices of the societies of the Church of the Immaculate Conception, was opened at the Assembly hall of the St. Patrick school on Tuesday evening, and the crowd was all that could get into the hall.

The committees have been very active for some weeks in preparation for the evening and they have transformed the hall into a typical bazaar with hand-somely decorated booths. Each booth is abundantly stocked with goods of every description, and they met with a ready sale all during the evening. There was the fancy work booth with its rich display of donated hand-made goods, the home-made candy table which was crowded all of the evening, the ice cream booth, cake booth, in fact everything that would attract the buyers.

There was an especially handsome array of dressed dolls, including baby dolls, a Sister of Mercy, a Red Cross nurse, and the daintiest and most exquisitely dressed doll one could imagine in pink satin and lace.

One would never think sugar was scarce to see the tempting array of home-made candies offered for sale and the attendants at this booth were kept busy all the evening. Home cooked food in variety found a ready sale and the preparations for the bazaar made by those in charge showed that much effort had been made by the committee to make the event a big success.

The booths were handsomely trimmed in light blue and white crepe paper, the colors of the Ladies' Sodality. A rose tree was an especially novel decorative feature, this being a hemlock tree on which were caught hundreds of dainty paper roses of pink, yellow, white and red. In each rose was a slip of paper containing a number which entitled the purchaser of the flower to a bundle.

In addition to the goods for sale

there were the usual number of contests and drawings and a very active committee saw that everybody had an ample opportunity to spend their money for this excellent cause.

The entertainment each evening is given by the children and the opening one of last evening gave evidence that a treat was in store for those who attend. The little folks took part in a little sketch entitled "Dr. Bluff's Patients," and a scarf dance, the participants in the latter being garbed in white and carrying pink scarves. This evening a musical act will be given by boys and girls "Frolics of the Gleamers" will be participated in by girls and a recitation "Nervous Little Man" will be given by one of the boys of the school.

On Thursday evening three sketches will be presented, these being "Haw-ways," "Grandma's Party" and "Hay-makers." There will also be music each evening.

This afternoon a matinee for the school children will be held and the only will be held on Wednesday and Thursday evenings. There has been a very large sale of tickets and the financial returns are sure to be large.

This bazaar is the closing of a very active campaign in the parish for the fund. A number of what parties were held during the winter and a concert given and the total receipts from the parish will be very good.

Rev. Alex Sullivan P. R. recently received a letter from one of the French priests in the devastated district of France in which he painted a vivid picture of the desolation which greeted them when they returned to their parishes. Churches which seemed to be the special apple of Ithaca were in some cases absolutely wiped out, not even a trace left, while all were put in a state of repair. The clergy the first link with their little flock have worked with them as they fought with them on this great reconstruction work, and ninety per cent of the priests of these dis-

tricts are themselves destitute. The following committees are in charge:

Officers of the Alar Society—President, Mrs. Michael Griffin; vice president, Mrs. Vincent McGowan; treasurer, John Kilroe.

Officers of Young Ladies' Sodality—President, Mary Griffin; vice president, Agnes Conners; treasurer, Frances Flynn.

Food Table—Mrs. Matison, Mrs. Kilroe, Mrs. Berryman, Mrs. Hogan.

Coffee—Mr. and Mrs. Sheehan, Mrs. Heffernan, Misses Flynn and Melmus.

Fancy Work—Julia Butler, Helen Butler, Mary Healey, Jennie Healey, Julia Doherty.

Aprons—Mrs. Kelley, Mrs. Chase, Mrs. Brown, Mrs. Butler, Mrs. Dolan, Mrs. O'Neill, Lucy Hogan, Dorothy Kelley, Katherine Dolan, Mary Connel.

Candy—Mary Thompson, Anna Timmons, Anna O'Keefe, Vera Miskell, Mary Connel, Anna Crowley, Elizabeth O'Leary, Mary Quinn, Helen Quinn.

Rose Tree—Mrs. Leary, Mrs. Shields, Mrs. O'Brien, Margaret Quinn, Anna Mallow.

Ice Cream—Mrs. Scott, Mrs. Perry, Mrs. McKenna, Grace O'Brien, Margaret Melmus.

Dolls—Mrs. Philbrick, Mrs. Flynn, Mrs. Kelley, Mrs. Conners, Mrs. McDonald, Mary Cullinane, Martha McDonald.

Doll Wheel—Mrs. Dowdell, Catherine Healey, Nora Quirk, Teresa Paul, Mary Flynn, Catherine Cronin.

Charge of Tickets—Mrs. Miskell, Mrs. Clifford, Mrs. Connel, Katherine Murphy, Agnes McCarthy.

Glees—Mrs. Conners, Mrs. Healey, Mrs. Connel, Olive Matison, Misses—Mrs. James Griffin, Margaret Grady, Kathleen McCarthy, Teresa Flynn, Gertrude Long, Anna O'Brien, Helen O'Brien, Marie Allen.

Entertainment—Jesse Jones, Elizabeth Quirk, Elizabeth Byrne, Anna Conners.

## NATIVE OF THIS CITY PRES. OF HUDSON NAV. CO.

A. H. Hanson was last week elected president and director of the Hudson Navigation Company. Mr. Hanson has from boyhood been in the steamship business, beginning with Sanford's Independent Line, which was later absorbed by the Eastern Steamship Company, at which time he was made general passenger agent. Two years later he became assistant to the president. On February 1, 1916, he went to New York as general manager of the Steamship Operating Company, a subsidiary of the United States Steamship Company, and also managing the fleet of the latter, consisting of thirteen steamers. These vessels were gradually sold until only four remained, and these were chartered by the Shipping Board. Mr. Hanson at that time was transferred to the Hudson Navigation Company, another subsidiary of the United States Steamship Company, as assistant to

the president and assistant treasurer. Later, when the general manager left, Mr. Hanson assumed his duties with the title of general superintendent, which office he held when elected president. The Marine Journal is glad to note the advancement of this veteran steamship man, whose name is familiar to thousands on the Atlantic seaboard—Marine Journal, N. Y.

Mr. Hanson is a native son of Portsmouth and his continued success will be pleasing news to many friends here. He is a brother of Mrs. James H. Connel.

## INVINCIBLE CLASS HELD PLEASANT GATHERING

The Invincible Class of the Christian Church Sunday School met on Monday evening at the home of the teacher, Mrs. Herman J. Caswell, on Union street, where a most enjoyable evening was passed. A business session was first held, Miss Emma Weston the class president, presiding, and plans were made for a Sunday school party on Monday evening, Feb. 23.

Following the business session a social time was enjoyed, a charming dish supper being an interesting event of the evening, with punch, crackers, fancy cake and coffee being served. Games and music added pleasure to the evening, a number of the class giving musical selections.

## STRAWBERRY BANK GRANGE

At the regular meeting of Strawberry Bank Grange on Thursday evening the newly elected officers will be installed by Past Master Amos O. Benfield, a musical and literary program will be presented, and a social hour with refreshments will follow.

## PERSONALS

A. W. Budden passed Monday in Boston.

Miss Teresa Connel of Wilder street is ill at her home.

Caleb Hodgdon of the M. C. Page store is enjoying a vacation.

Henry McGoff has been passing a few days at his home in Concord.

Mrs. James Griffin of Miller avenue who has been ill is much improved.

Former Lieut. Hickey, U. S. M. C. and been passing a few days here.

Mrs. D. J. Carroll was called to Concord today by the death of a relative.

Fred J. Polson, clerk at the local postoffice, is restricted to his home by illness.

Charles Lytle has changed his residence from Rogers street to Pearl street.

The family of William Caswell are confined to their home on State street by illness.

Miss Alice Melham has returned from teaching for a week at the Plymouth Normal School.

Louis Cate who has been ill at his home in Rochester has returned to his duties at the M. C. Page store.

Walter Miller has made an inspection of the S. S. Norumbega and he found her in fine shape after one of the severest tests ever given a new ship.

Judge Edward H. Adams will give an address Thursday morning at the High school when exercises to commemorate Lincoln's birthday will be held.

Mrs. Fred Lindsey was awarded the five pound box of chocolates at the Odd Fellows Fair on Tuesday evening. Frank A. Gidden is improving and is expected to return to his home.

## Wrestler, Who Seeks to Regain World's Title, as He Looked in A. E. F. Outfit

EARL CADDOCK

Earl Caddock was world's champion wrestler when he went to war. While in France he became a sergeant in the Headquarters Troop of the Eighty-eighth division and was killed in the thick of several big engagements on the Aisne sector. His health became affected and he pronounced his retirement from the mat game, but months of roughing it in the mountains of Wyoming convinced him that he was himself again. In the meantime Joe Stecher had defeated all the other heavyweights and claimed Caddock's title. They met at Madison Square Garden, New York, a couple of weeks ago and Earl went down to defeat after more than two hours of what experts declared to be the best brand of wrestling seen in New York in years. Caddock is not yet satisfied that Stecher is the better man and now they are to wrestle in a western city some time in March. The ex-soldier is one of the marvels of the mat game, barely weighing 190 pounds, while a majority of the other heavyweights tip the scales at from 210 to 235.

## LOOKING THEM OVER WITH THE SPORT FAN

Manager Cragen will present an exceptionally strong lineup for next Saturday night's game against "The Harvey's" Newport team. The Newport outfit have won from every five of importance in New England, but Cragen feels he has a chance to turn them with the following players: Castelle, Riley, Waite, Murphy and Badley. Murphy is the star performer of the Sharon, Mass., team and will be here next Saturday night, if possible. If he is unable to come, Paulie Grant of the Andover team will be sent in his place.

Johnny McLaughlin, star middleweight boxer of Philadelphia, will meet Minky Cross at the Exposition Building in Portland in the feature bout Friday night. McLaughlin has come to the fore in the past few months. He has fought six times in New England, a smashing battle with Ted Reed, and again with Brooklyn Al Nelson.

The death of Charles S. Rowan, who was for 15 years trainer and driver of harness horses on New England tracks, occurred at his home at Bangor, Me., on Sunday. He was a native of St. Johnsbury, Vt., lived for some time in Andover, then went to Providence, where he remained until he went to Bangor. He began driving horses when 13 years old. He was widely known as the owner and driver of the racing mare Nancy S., whose records of wins were an even 80. It is said that she never made a race in all that time and her record stood at 2:19 1-2 nearly all through her career until in almost her last appearance she lowered to 2:18. She died all over New England but mostly in Maine.

John K. Jones, ex-middleweight and champion in Manchester after a week's sojourn at Norfolk where he has been convalescing after an operation performed upon his arm. Jones says he is fast gaining his strength and says he is in better condition than any time during the past year. Klonis is now working out at the Y. M. C. A. in Manchester with Jim Poulos and will try himself out Thursday evening at the Grand Opera House, Boston.

Not since the days of John Paul Jones has a runner as fast as Minky Cross. The fast-moving Maine boy who won the mile handicap in the B. A. A. games Saturday night on the 50-yard mark. Douglas took these ahead of him and continued to run away from the scratch men, they being no match for him. As they were on even terms at the start, the time, 4 minutes, 24 1-2 seconds, for the 50-yard mark was good. It is about that time on the cinders and outdoors, and it is predicted that he will break the Exeter record for the distance which is 4 minutes, 26 1-2 seconds, made by J. D. MacKenzie in 1911, and later of Princeton. Jones' mile race was 4 minutes, 26 1-2 seconds, made in the Exeter and Dover, dual meet in 1910.

## BELFAST GIRL RUNS AWAY

She and Man Last Seen on Board Train.

Belfast, Me., Feb. 11.—The disappearance on Saturday last of Olive Robinson, a 14-year-old grammar school girl, with Henry Collins, 25 years old, a light imitator, was reported Tuesday night to the police of all the cities in Maine and of Danvers and Boston in Massachusetts, where it is thought the pair may have gone.

The girl is the daughter of Mr. and Mrs. Frank Robinson, who came here two years ago from Appleton, Me., and was a pupil in the eighth grade of the public schools. The man came here within the year from Lubec, Me., and is the son of a full-blooded Negro father and a white mother.

When Collins first came to this town he made the acquaintance of the girl and at once began courting her. He was often seen walking with her and on some occasions when the parents of the girl were not at home he was said to have visited the girl at her home. The parents of the girl objected to his receiving the girl's attentions, but their petitions seemed only to strengthen her favor for the man.

Last Saturday the Robinson girl left her home in the early afternoon ostensibly to go to the movies. When she did not return to her home for supper an inquiry was made and it was learned that she and the man boarded a train for Boston after he had bought the tickets. It is thought by the conductor of that train and the parents of the girl that the couple left the train before it had gone many miles to elude pursuit.

The mother of the girl believes they have gone to Quebec where Collins formerly worked.

## EARTHQUAKE DISTURBANCE RECORDED

(By Associated Press.) Washington, Feb. 10.—An earthquake approximately 1000 miles from Washington was recorded at the Georgetown University this afternoon. The disturbance began at 5:16 and continued until 6:40 with its greatest intensity at 6:25. The indications are that it was in Mexico or Central America.

## OPEN SPEECHES IN HOUSE OF COMMONS TAME

(By Associated Press.) London, Feb. 10.—The speeches opening the House of Commons today, will not make history. Including that of Premier Lloyd George they were of no great occasion and no high value was heard, although the Irish question was touched upon by all of the speakers. Premier David Lloyd George devoted a good part of his speech to the government attitude on the Russian question, but refused to be drawn into an argument on the peace treaty.

## FEDERAL TROOPS IN COMMAND AT LEXINGTON

Lexington, Feb. 10.—There was no lessening of the strict military rule apparent today in this town. Federal troops were in control and there was a strong guard about the Court house where William Locket is confined under guard, after his conviction of the murder of a ten year old girl. They are guard to all of the approaches to the city and the troops will prevent a recurrence of the riots of yesterday in which five were killed.

## WANTS IGNORANT PUT TO DEATH

London, Feb. 10.—"When people cease to be educated they cease to be of any value to the community and the lethal chamber is the only place for them."

So declared the Rev. J. H. B. Martin, a Unitarian minister of Coventry, in a discussion at a conference of the Educational Association at University College.

Young Steele of the navy who is located at the local naval station, and who has boxed in this city a number of times, won a fast six round bout from Johnny Morris in Boston Monday night. By winning from Morris, who is a coach, ex-amateur man, Steele demonstrated that he is a fighter. He is capable of making the best of them.

## SCHOOL BOARD LEAVE TEACHERS' SALARIES TO FINANCE COMMITTEE

The regular monthly meeting of the Board of Instruction was held on Tuesday evening with Mayor Hilson presiding and Mrs. Benfield, Messrs Gooding, Knight, Newell, Sherburne and Thayer present.

Mr. Sherburne for the committee on resolutions, consisting of Messrs Sherburne, Thayer and Mitchell, offered the following resolution on the faithful service of the late Judge Page on the Board of Instruction which were adopted and ordered printed.

Hon. Calvin Page a member of the Board of Instruction, after serving the City of Portsmouth in this position faithfully, honestly and wisely for nearly a generation "passed on" Dec. 12, 1919.

He had held many public and semi-public offices, in none of which was his interest and ability more manifest than in a working member of this Board.

Possessing a well-trained, judicial mind, integrity and fundamentally just, seeking only the truth, a student of the verities, detail, if it threw any light on the matter at issue, his judgments were unbiased, logical, well-balanced, honest and safe.

His ever-ready, unswerving straight dealing with his business associates and with the members of this Board was to him almost a dogma.

His one prominent attribute was loyalty to his friends and to his profession; a confidence with him was sacred and many resorted to him for advice and counsel in personal as well as professional matters. All with that complete trust which great natures inspire.

A good lawyer, a wise, clear-headed business man and a firm and steadfast friend has "lost step and fallen out."

Yet, even in our ashes live their wonted fires—"This plain what he would counsel."

"Remember me when I am gone away, Gone far into the silent land; When you can no more hold me by the hand."

Nor half turn to go, yet, turning, stay; Remember me when no more day by day.

You tell me of the future that you planned;

Only remember me; you understand I will be too late to counsel then, or pray.

Yet if you should forget me for a while, And afterwards remember, do not grieve;

For if the darkness and corruption have

Even a vestige of the love that once I had,

I shall prefer that you forget and smile;

That you should remember and be sad."

EDWARD P. SHERBURNE, LUCAS H. THAYER

Mr. Sherburne for the committee on rules offered two amendments to the rules which were adopted. One to change the date of the teachers' election from June to May and the other pertaining to the health and welfare of the school children.

Mayor Hilson appointed the following committees, who were confirmed: High Schools—Messrs. Thayer, Gooding, Knight and Mitchell.

Elementary schools—Wood, Newell, Knight and Sherburne.

Training schools—Gooding, Benfield, Weston and Knight.

On School houses—Knight, Weston, Knight and Sherburne.

Philines—The Mayor, Thayer, Wood, Gooding and Knight.

The question of the increase in teachers' salaries was under discussion for some time and it was left to the finance committee who will hold a conference with the finance committee of the City Council and the Teachers' committee at 7:30 Wednesday evening.

A petition of the Mothers Club at the

Plains school, for certain changes in the toilet arrangements of the school, was left to the committee on School-houses with power.

It was voted to allow the pupils of the high and junior high to enter the prize essay contest in connection with the army recruiting drive.

ODD FELLOWS DO BIG SECOND NIGHT BUSINESS

The second night of the Osgood Lodge bazaar drew an even larger crowd than on the opening night, and there was a big business. All of the booths reported a big sale and the members of the committee kept things moving fast.

Mary's orchestra gave a concert and played for the dancing in the annex. During the evening Murray and Franklin gave a singing and dancing act which was very good.

A matinee will be given this afternoon and Miss Zylpha Woods will give a Dutch dance.

The executive committee for the entire affair was Paul Noble Grand Joseph H. Morrill as chairman, assisted by Noble Grand Arthur S. Harvey, Secretary Charles H. Kehoe, secretary of the lodge, and John H. Yeaton, treasurer. They have worked untiringly with the assistance of their able committees for the success of the same.

While the lodge did not ask for donations from local firms or citizens, a number contributed, among these being Andrew Jarvis, Consolidated Coal Company, Charles Gray, Charles Green, Charles J. Gause, George W. Jones and others.

Osgood Lodge, L. O. O. F., was instituted in 1863 and has 400 members. It is an active organization and gaining a membership and strength and credit to the city.

Its present officers are: Noble Grand—Arthur S. Harvey, Vice Grand—Thomas Plimpton, Recording Secretary—Charles H. Kehoe,

Financial Secretary—Josiah M. Varrell,

Treasurer—John H. Yeaton, Warden—Blaine H. F. Littlefield, Conductor—Charles B. Hodgdon,

Inside Guard—John H. Morrill, Outside Guard—Fred Parsons, R. S. N. G.—William Tilton,

L. S. N. G.—Fred J. Worden, R. S. V. G.—Martin Anderson, L. S. V. G.—P. H. Plummer,

L. S. S.—James Gillespie, R. S. S.—Robert A. McCombie.

### PLANS FOR ESSAY CONTEST

#### Herald Cup to Be Presented to the Winner.

On February 20, 1920, in all the schools of the United States there will be an essay contest open to all scholars without age limit and the three winners of this contest are to have a free trip to Washington, D. C. accompanied by their parents. In Washington, Secretary Baker will present medals to the prize winners.

In addition, there will be local essay contests along the same line, prizes being given by some of the well known business firms of this city as follows: For the best essay in the High School Senior Class, also the Junior Class, a handsome silver cup each donated by the managing editors of the Portsmouth Herald and the Portsmouth Times.

For the Sophomore and Freshmen, the prizes will be respectively a ten dollar gold piece or equivalent in merchandise from Henry Peyser & Sons and a ten dollar gold piece or its equivalent in merchandise from Kerwin Touch Co.

For the Whipple School, the seventh and eighth grades will receive a prize of ten dollar gold piece or equivalent in merchandise from A. P. Wendell & Co. and from Shaw's Market.

The conditions of this contest are as follows: The subject of the essay is "What are the benefits of an enlistment in the U. S. Army?"

Essays will be written in class rooms on Friday, February 20, 1920 and are not to be over 400 words in length.

ten on one side of the paper with either pen and ink or pencil.

Essays may be written from notes if desired. The judges who will serve in selecting the best local essays are Messrs. W. H. Shoyton, L. T. Gray and G. P. Moody.

In the contest for national prizes, the principal of each school will appoint a board of three judges to select one essay as the entry from his school. On February 27, the entries selected will be forwarded to the nearest army recruiting station, which in the case of Portsmouth and Kittery will be Portland, Maine. The District Recruiting Officer will appoint a board of three judges to pass on the essays submitted by the schools of his district. The ones selected as the best essay will be forwarded to Washington as the District's entry.

For further information write to U. S. Army Recruiting Office, Portsmouth, N. H.

TOHEY & NELSON.

#### NOTICE

The supper scheduled for Thursday evening at the Universalist vestry, has been postponed until a later date.

### THREE MORE DEATHS AT NAVY YARD

#### Total of Nine Die From Influenza Within Ten Days.

The officials at the Portsmouth navy yard are becoming much alarmed over the increased deaths among the enlisted force at the station from influenza. A total of nine have occurred within a period of ten days, regardless of all precautions and everything in medical skill.

Three more were added to the list during Tuesday night, passing away at the yard hospital: R. W. Benson, apprentice seaman on the destroyer Hildred; Claude Richards, fireman on the U. S. S. Des Moines, and C. B. Simolhan, mess attendant on Eagle 46. A total of 18 cases was reported by the medical corps today, all among the enlisted personnel.

### DEATH CALLS OLDEST ACTIVE BUSINESS MAN

#### Frederick S. Wendell, One of the Old School, Passes On.

Mr. Frederick S. Wendell, one of Portsmouth's oldest and best known residents and merchants, died at his home on Pleasant street Tuesday night, Mr. Wendell had been in failing health for more than a year, but up to that time he had maintained his active interest in business.

Mr. Wendell was born in this city Nov. 1, 1830, the son of Edward Sargent and Maria H. Whitelock Wendell. As a young man he was active in the shipbuilding industry, which was then at its height and he afterwards was engaged in the railroad business with the late Elbridge Pelree in the South. For over a half century he was actively engaged in business in the wholesale tobacco trade in this city.

Mr. Wendell was prominent in the affairs of the city for many years. He served in both branches of the city government and was for years an active member of the Board of Assessors of Taxes, and he had a wide knowledge of real estate. He was a charter member of the Portsmouth Yacht Club and for many years prominent in the club and was greatly interested in yachting.

He was a gentleman of the old school who had outlived his old business friends, but renewed them with the younger generation, with whom he was a great favorite.

He is survived by his wife; one son, Edward T., of this city, associated with his father in business, and two daughters, Mrs. Charles J. Edwards of New York, and Mrs. George B. Lord of this city; and a grandson, Harold Wendell of Cleveland, O.

#### GARDNER TO BATTLE KILONIS.

Rugged Bout Scheduled for Monday Night.

Rugged action, combined with wrestling, marks the entire card of events arranged by Promoter Bill Dorr for decision at Freeman's hall, Monday night, with John Kilonis, the Greek champion, facing Plinky Gardner, the feature number to a finish, best two out of three falls. This match shapes up as one of the best ever arranged in New England and is sure to be witnessed by the biggest crowd of the season.

The preliminary bout between Young Cohen and Young Tawhe, both of this city, should be an interesting affair. Friends of the boys have long tried to bring them together and now that they are matched a large following will be on hand to cheer their favorite.

#### HAMPTON BOY TO TAKE WEST POINT EXAMS

Candidates designated during the past week for the Military academy.

### TAKE OVER THEATRE AT SOUTH BERWICK

Gray and Carrigan Add It to the Chain and Change the Name.

The Home Theatre at South Berwick has been taken over by William P. Gray, formerly of this city, and William Carrigan of Lewiston, who have several theatrical interests in Maine and elsewhere. The name of the theatre will be changed to the New and closed temporarily for repairs. Strand and Fred De Costen of Lewiston will manage the same. It has and attentions.

#### LAST SOCIAL DANCE

As the last social event of prominence before the Lenten season the semi-annual ball of the P. A. C. which takes place on Friday, Feb. 13 at Freeman's hall bids fair to be one of the most popular affairs of the winter season. Every detail which goes to make a complete success has been carefully handled by the committee.

The decorated scheme of the hall will be one of the features and innovations in electrical effects which can not be exceeded, are promised by the committee.

The music will be furnished by Willworth's Orchestra of Somerville, one of the best orchestras around Greater Boston. The latest metropolitan dance hits and other musical novelties are promised.

The catering will be in charge of Andrew Jarvis in the annex and plans have been perfected to avoid the crowd during refreshments which has been so disagreeable at other similar occasions.

The advance sale of tickets has been large and indications point to a capacity gathering.

#### VALENTINES AT PEARSON'S

Largest line valentines in the city at Pearson's little store around the corner, Penhallow St.

For one, two or three cent valentines, go to Pearson's, hundreds for the children to select from. h 31 17

#### JONES-STENSTREAN

The marriage of Annie May Esther Stenstream and George Henry Jones, both of this city occurred on Sunday, the ceremony being performed by Rev. Percy W. Caswell, pastor of the Court street Christian church. The groom is employed as a nutman.

### JOHN O'NEIL IS BADLY INJURED ON RAILROAD

#### Leg Jammed Between Wing of Snow Plow and a Switch-Stand.

John O'Neil, a resident of Cabot street and employed as a section hand by the Boston and Maine railroad was badly injured on Tuesday afternoon near the Bartlett street crossing of the southern division.

O'Neil was clearing away the ice from a switch just east of the crossing when a snow plow came along. O'Neil stepped out on the side of the track while the plow was passing when suddenly one of the snow rings attached to the plow broke away from its fastenings and dragged him up against the switch stand nearby. The left leg was terribly crushed and the switch stand wrecked in the accident.

The injured man was rushed to the Portsmouth hospital where it was found necessary to amputate below the knee owing to the several fractures.

Much sympathy is expressed by railroad men for the unfortunate man who was a most faithful worker and has performed many years of labor in the department of maintenance of ways. He is married and has one child.

#### The Optimist of Your Room.

The window is more than a hole in the wall—it is the sturdy optimist of the room. Watch it, the next gray day, and see how it gathers every stray bit of sunshine and brings it right in to you! It is the pleasant compromise between the walls of your room and the outdoors. In the understanding of that fact lies the key to all good window decoration.

You are always welcome in Margeson Brothers' drapery department and will rejoice in making the acquaintance of our exclusive and tempting curtains.

Keep in mind our furnished suite, "The House Beautiful"—it is always a pleasure to show these rooms which we believe to be of mutual benefit to our customers and to ourselves.

# GENERAL STRIKE OF RAILROAD WORKERS IS PREDICTED

**Officials Claim That Unions Will Not Wait Much Longer For Wage Adjustment Decision---Washington Considers Situation Most Serious**

## AVIATORS ARE KILLED IN COLLISION

(By Associated Press)  
San Antonio, Tex., Feb. 10.—Lieut. Harry Smith and Lieut. Harry Brown were killed instantly today when their machines were in collision 125 feet in the air over Kelley Field. The two aviators both members of the 94 Aero Squadron were practicing in low hanging clouds when the accident occurred.

## FLU ON THE INCREASE IN MASS.

(By Associated Press)  
Boston, Feb. 10.—The state department of health reported tonight 1898 new cases of influenza for the day and of these 401 are in Boston. Local deaths from influenza were 23 and from pneumonia 30 the highest record of the present epidemic.

(By Associated Press)  
Detroit, Mich. Feb. 10.—Failure of the railroad unions leaders and Director General Hines to reach an agreement at the Washington conference, may result in a general strike of the railroad workers. Allan Barker, President of the Brotherhood of Maintenance, Ways and Shop employees, who on Monday called a strike for Feb. 17 said tonight:

A message received at headquarters indicated that the leaders of the railroad organizations in Washington would stand pat and act as a unit. "It

is my belief" said Mr. Barker "that even if the officials of the unions should refuse to call a strike, that many thousands of the railroad men will join with his union in the strike called unless some relief on the wage question is forthcoming."

Washington, Feb. 10.—The Washington administration hearing the end of the control of the national railroads, today faces the most serious situation so far. Tomorrow's conference of the leaders of the Union with Director General Hines will probably determine the outcome of the crisis.

# SEIZE WHISKEY IN BALED HAY

(By Associated Press)  
Bangor, Feb. 10.—United States Marshal Wilson seized 1325 quarts of Canadian whiskey which was concealed in a carload of pressed hay today. The hay was consigned to the Ardelle Kennedy Company of Bangor. The whiskey was taken to a store house.

## KNOX AND BORAH ATTACK PEACE TREATY

Washington, Feb. 10.—Debate on the Peace Treaty was resumed today on the floor of the senate although the leaders had laid it aside until next week. The members opposed to the treaty who voted against its being taken up yesterday brought the subject again today. Senators Knox and Borah both republicans denounced the economic section of the treaty and called it a betrayal of the people and a betrayal of the world. Senator Borah attacked Herbert Hoover's stand and called upon him to answer the list of questions which has been submitted to the various candidates.

## LAY OFF GRANITE STATE FREIGHT HANDLERS

Manchester, N. H., Feb. 10.—Two-thirds of the freight handlers in Manchester have been laid off as a result of the storm which demoralized freight and passenger service on all railroads throughout New England.

An embargo has been declared on all freight here, as it is impossible to obtain cars to ship the goods away in and practically no freight is being received. Trains of cars loaded with freight are being dug out of snow drifts on sidings along the line. The resumption of normal freight service is expected today or tomorrow.

## R. R. SITUATION UP TO PRESIDENT

Washington, Feb. 10.—White House and Railroad Administration officials regard "as most serious" the railroad situation precipitated by the order for a strike Feb. 17, issued by officers of the Brotherhood of Maintenance of Way Employees and Shopmen. Secretary Tumulty will see President Wilson today to lay before him the matter, emphasizing the possibility that this strike may be the opening wedge for a general strike of all railroad employees should the wage demands be refused by Director General Hines at his conference with union officials now in progress.

Mr. Hines is understood to have conferred with Secretary Tumulty for more than three hours last night, outlining the situation for presentation to the President.

# GEORGE E. BROWN CHARGED WITH MURDER OF DUNN

(By Associated Press)  
Farmington, N. H., Feb. 10.—George E. Brown, a farmer and sawyer, was arrested at his home late today on a warrant charging him with the murder of Richard Dunn, the caretaker of the Hogg estate, whose body was found yesterday in the snow, with a bullet thru his back. He will be arraigned in the district court at Oaspee tomorrow.

## THE LANDLORD'S INCOME TAX

That the government has a sharp eye this spring to see that full income tax is paid on rents received during 1919, is acknowledged by the Internal Revenue officials.

Every income tax blank has a special space set apart for reporting rents received. And this space will be watched as the returns come in, to check up the rents of landlords and landlords.

These are bonanza days for rent estate owners. Rents for all kinds of property have advanced; in some localities, to prices never dreamed of. The keepers of lodging houses and boarding houses have shared in the general prosperity from rents. And even the cottage and apartment-dweller has made a little money on the side by renting the rooms he could spare.

**Profits from Sales.**  
The higher prices of 1919 induced many landlords to sell all or part of their property, and generally at substantial gains. All such gains are income, and must be figured out in black and white on the annual return. Persons who held leases on property, and during 1919, sublet at a profit, must show such gains in their income tax returns.

**How to Report Rents.**  
The forms for personal income tax are designed so that income from rents and royalties shall be separated from other income. The information and figures should be carefully and accurately entered in Block "E."

The kind of property rented should be indicated. If it is a building it should be shown whether the construction is of wood, cement, brick or stone. If a farm, or vehicles, machinery, etc., it should be so stated. If the taxpayer received royalties, the word "royalties" should be used to denote the source of income. And for convenience in checking the return, the taxpayer should separate the various kinds of property, and show separately the figures of rents, expenses, etc., incident to each class.

If any of your tenants or lessees paid you \$1000, or more in rents during 1919, you should show the names of such tenants or lessees separately in the second column of Block "E," together with the amount of rent received from each.

In column 3 you should declare the amount of income whether in cash or its equivalent received during the year from each class of rented property.

**Figuring the Deductions.**  
Repairs: Under this title the taxpayer may claim only actual expenditures for small repairs such as replacing broken glass, fixing water pipes, papering, interior painting and other small necessary repairs necessary to keep the place in rentable condition. You are not allowed to include the purchase of a new range, a boiler, or other replacements. If the entire property is rented, exterior painting may be included under repairs, but a new roof, new cement walks or steps, or other similar expenditure that adds to the value of the property may not be included as an expense. Wear and Tear: If the charges for repairs are made strictly in accordance with the above, a reasonable allowance may be claimed for wear and tear of the property caused by its use during the year. The basis for computing such a charge is the cost of the property, or, if owned prior to March 1, 1913, its fair market value at that time.

It is important here to point out that the cost or market value of land must not be included in any computation for wear and tear, for land is ordinarily not subject to wear and tear and exhaustion. Where loam, gravel, clay, sand, etc., is removed for sale, there may be a deduction allowable for depletion.

The other factor in computing the amount year and year on rented property is the number of years constituting its estimated usefulness after date of purchase, or after March 1, 1913, if owned before then. The cost or value, as explained above, is divided by the years of usefulness, and the result is the proper annual allowance.

If improvements or additions have been made to rented property (since March 1, 1913), their cost may be added to the cost or value of the property, and the annual allowances for wear and tear will thus be adjusted.

There are no specified rates for wear and tear deductions. Each case must be considered in the light of facts, as to the use to which such property is put and the local conditions which may affect its cost of property.

**Property Losses:** If the taxpayer sustained a loss during the taxable year, which was not compensated for by insurance or otherwise, a deduction against income for the year may be taken. When the loss occurred through destruction by fire, flood, or other casualty, the amount deductible is the difference between the cost (or fair market value as of March 1, 1913 if owned prior to that date) and the salvage value. There must also be considered in figuring the loss, the wear and tear which the property sustained prior to being destroyed. And, if the property was insured, care must be taken not to claim a loss on any proportion recovered.

**Interest:** If the taxpayer paid any interest on mortgages or other indebtedness incurred in connection with the rented property, such interest is deductible as an expense against the rents received. The taxpayer is not allowed to deduct any payments made toward liquidation of the indebtedness. Taxes: All property taxes are deductible, except assessments for local improvements, such as sewer, sidewalks, etc. After being included in Block "E" care should be taken that the same taxes and interest paid are not again deducted in Block "I" of the return.

**Other Expenses:** These include water rates, light, fuel, janitor hire, and other paid expenses that were necessary and were incurred through rental of property.

**Renting Part of Home.**  
In the case of the owner of an apartment house, who occupies one of the apartments and is renting the others, the repairs and other expenses allowable are confined to such items as are incurred in connection with the rental of the house. With respect to wear and tear, the owner should claim only a proportionate part of the computation for the entire building.

In the case of a landlord or landlady who rents furnished rooms, there may be claimed against the rent received a deduction for wear and tear on the furniture and for minor expenses incurred such as laundry, fuel, light, etc., also a proper proportion of the rent paid, if any, for the entire home or apartment. In computing such division of the rent paid, in order to arrive at the proportion for rented rooms, consideration should be given as to the size, location and desirability of the rented rooms.

If the landlord or landlady furnished meals to boarders, the gain realized should be figured on the basis of a household budget and included with the rent received.

**LEGION TO DEMAND ACTION FROM CONGRESS**

(By Associated Press)  
Indianapolis, Feb. 10.—The National Executive committee of the American Legion adopted resolutions at their session today declaring the belief of the organization that legislation to adjust the compensation of the service men was the paramount obligation of the government with the exception along of the bill of the rights of the widows and orphans of ex-service men and for the disabled. A copy of the resolution was sent to the Committee which is in Washington to appear before the congressional committee. They favor a \$60 bond for each month of service for all disabled soldiers, sailors and marines.

# Food Drafts FOR TEN DOLLARS

deposited at this Bank, a draft will be issued for which there will be delivered to the order of any person named therein, at the American Relief Administration Warehouse at Hamburg, Warsaw, Vienna, Prague or Budapest:

It is useless to remit money to a family in Central or Eastern Europe with the hope of improving its food situation, as there is no food to be bought.

In this manner you can be assured of the delivery of the food called for.

**NATIONAL MECHANICS & TRADERS BANK**  
Portsmouth, N. H.

# OF INTEREST TO WOMEN

The first of February of each succeeding year brings a new group of names on the checking account of the various banks of the country and the increase in proportion of women's names in these lists is surprising and at the same time encouraging to one who looks back of a thing to the motive. More and more women are handling their own money or that of the family and learning what checking accounts mean and the convenience and safety of the same. Due in part to the increased number of women who are earning money within the past five years and in a large part to the fact that the men of the families are learning that their money can be more prudently and wisely used by the wife than by the man himself, the whole trend of the times is towards lifting women into business methods and making them more independent and self-reliant.

**WHOLE WHEAT PUFFS**—The ingredients needed are two unbleached eggs, two cups of milk and two cups of flour, with a quarter of a teaspoon of salt. Beat all thoroughly together until not a lump remains and then pour the mixture into very hot muffin pans, well greased, filling them about half full. Cook thoroughly until one broken open is hollow inside and shows a firm wall or crust.

**COIN AND PIG MUFFINS**—Six together one cup of yellow cornmeal, half a cup of white flour, one tablespoon sugar, one teaspoon salt, one tablespoon baking powder. Add half a cup of milk, one well beaten egg, three-quarters of a cup of milk and half a cup of chopped figs. Bake in muffin pans.

**BRUAD PUDDING**—To one quart of milk add one pint of bread crumbs, one cupful of molasses, a pinch of salt, and a cupful of raisins rolled in flour, spices to taste. Bake for one hour in a moderate oven.

**RAISIN SANDWICHES**—Butter whole wheat or graham bread in the loaf and cut in thin slices. Cover with raisins and nut meats chopped together. Put together in sandwich form. Serve with tea, milk or cocoa. Dates may be added to the raisins instead of nut meats if preferred.

**SPICED CORN BREAD**—Spoon corn bread gets its name from the fact that it must be served with a spoon from the dish in which it is cooked. It is economical. It calls for a cup of cornmeal, two cups of sour milk, in a little of which half a teaspoon of soda is dissolved; a teaspoon of sugar, a teaspoon of salt, two eggs well beaten and the size of an egg, melted. Mix the ingredients together in the order mentioned and beat hard for three minutes. Then pour into a greased earthen dish and bake for an hour in a medium oven. This bread should be eaten with butter.

**RICH MUFFINS**—These muffins are made of one cup of rolled rice, two eggs, two cups of flour, a tablespoon of oil or melted butter, three cups of milk and salt to taste. Mix the eggs, butter and milk, sift flour and salt and add it and the rice to wet ingredients. Bake the muffins quickly.

**HOME COOKING**

Dried fruits add immeasurably to the palatability of many things, hot breads and puddings among them. Following are a number of suggestions any of which will redeem the most simple of meals from the commonplace, and none of which one has any

## R. R. SITUATION UP TO PRESIDENT

Washington, Feb. 10.—White House and Railroad Administration officials regard "as most serious" the railroad situation precipitated by the order for a strike Feb. 17, issued by officers of the Brotherhood of Maintenance of Way Employees and Shopmen. Secretary Tumulty will see President Wilson today to lay before him the matter, emphasizing the possibility that this strike may be the opening wedge for a general strike of all railroad employees should the wage demands be refused by Director General Hines at his conference with union officials now in progress.

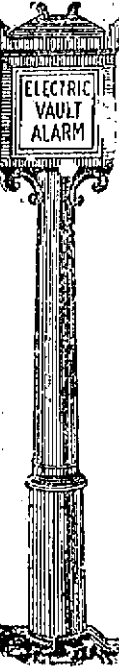

Mr. Hines is understood to have conferred with Secretary Tumulty for more than three hours last night, outlining the situation for presentation to the President.

## MEXICO TO RECOVER LAND GRANTS

Mexico City, Feb. 9.—President Carranza's administration intends to recover to the nation great tracts of lands conceded by previous administrations to foreign interests, according to statement of Mexican officials. It intends also to enforce the constitutional prohibition barring foreigners from holding land within 62 miles of the Mexican frontier and 31 miles from the coastline.

The general trend for these statements is to the effect that it is the purpose of the administration to avoid colonization projects that might eventually endanger the nation and to recover dominion over all lands without violating the legal rights of the present producers.

These statements were made in explanation of the government's request that the 1919 Congress float a loan of 50,000,000 pesos to enable the nation to recover land held under concessions by foreign interests.

The officials stated that the greater part of several states, such as Lower California and Chihuahua, is held by foreigners under concessions given by previous administrations.

Where the terms of these concessions have not been complied with, they have been nullified, according to

the Department of Agriculture. Part of the proposed loan was intended to indemnify holders for these concessions for improvements they had made. Interests who have been deprived of their concessions by this nullification have declared that international conditions for the last 10 years have made it impossible for them to fulfill their agreements. Various British representatives are said to be pushing for indemnification for work done on concessions especially in Lower California and Chihuahua.

Denial is made by Pastor Bernal, Secretary of Agriculture and Development, that the government plans to nullify all concessions granted under the Diaz and Madero regimes. Only those where prescribed obligations have not been met will be annulled, he asserts.

### POTATO PEELERS ORGANIZE UNION; WAGE \$6 A DAY

Chicago, Feb. 9.—A union of potato peelers has been formed here. The organization starts with a membership of 150. A standard wage scale was adopted of \$6 a day for eight hours' work, three meals a day and time and a half for overtime.

## TO CREATE A BETTER CITIZENSHIP

The American Library Association has entered upon a movement to create a better citizenship and to throw a healing light upon the industrial and economic problems now agitating the country through the application of its "Books for Everybody" project.

There are in the United States today 15,000,000 foreign born who depend chiefly upon the foreign press. If the people books do not exist in sufficient numbers the Association as part of its Enlarged Program will seek to utilize the publisher and translator together in order that the needs of the situation may be met. The Association believes the wave of unrest is due in a measure to the lack of a proper understanding on the part of the foreign born and that a solution of the problem will be found in books which breathe the spirit of American ideals and traditions.

The extension of the county library system, which assures a flexible circulation to every section of the county, adapting it to another phase of the Enlarged Program which the A. L. A. advocates. The need of more books in the uniform type for the 75,000 blind people in the United States is still

another problem with which the Enlarged Program deals.

To carry out the Enlarged Program two million dollars will be required. This money will not be obtained through the agency of a drive but through the individual efforts of the 1,000 librarians who constitute the Association membership.

Much of the Enlarged Program has been in operation for some time. The book service in the Merchant Marine, through which good books are provided for the American sailors on American ships, is firmly established. So too, have the needs of the lighthouse keepers, the coast guards and the hospital of the U. S. Public Health Service been cared for.

One of the points which the American Library Association advocates is the wider use of industrial and technical books. It clearly points out the lack of sufficient industrial and business libraries and strongly urges manufacturers and owners of other industrial plants to install them for their workers.

## TAP MAPLE TREES AND SAVE MONEY

United States Tells How to  
Relieve Sugar Shortage.

Washington, Feb. 9.—Many thousands of American farmers throughout a region comprising more than a score of States are overlooking opportunities to secure delicious maple sugar and syrup for home use, as well as for sale, at very little cost. This statement, of peculiar interest because of the present sugar shortage, and the approach of "sugar weather," is based on data compiled by experts of the United States Department of Agriculture who have made a special study of the maple-sugar industry. While Americans commonly think of this industry as being confined largely to the northern States in New England and New York, there, too, as a matter of fact, many potential "sugar bushes" throughout eastern and northeastern United States. In other words, throughout a region extending south to include North Carolina and Tennessee and west to include northern Missouri, Iowa, and Minnesota. There are also a considerable number of maple trees of a sugar-yielding species in Washington and Oregon.

While some experience is necessary to boil the sap down to syrup and sugar properly, the process is not complicated and may be learned readily. A United States Department of Agriculture bulletin, "Production of Maple Syrup and Sugar," gives the necessary information, and will be sent free to any person addressing the Department at Washington.

A clump of 10 or 15 trees usually will yield enough syrup for family use to make taffy, worth while, and in many cases will afford a surplus which can be sold at a remunerative price. The flow of sap depends upon the age, condition and habit of growth of the tree, also upon the character of the weather and condition of the soil during the sap-flowing season. In a good season a tree 15 inches in diameter will yield sufficient sap to make from one to six quarts of syrup, which in turn can be concentrated into two to ten pounds of sugar. Larger trees under the same conditions will produce correspondingly larger yields of syrup and sugar. All hard maple trees, 3 inches or more in diameter, may be safely and profitably tapped for syrup and sugar production.

### WELFARE COMMITTEE FOR DIS- CHARGED SOLDIERS

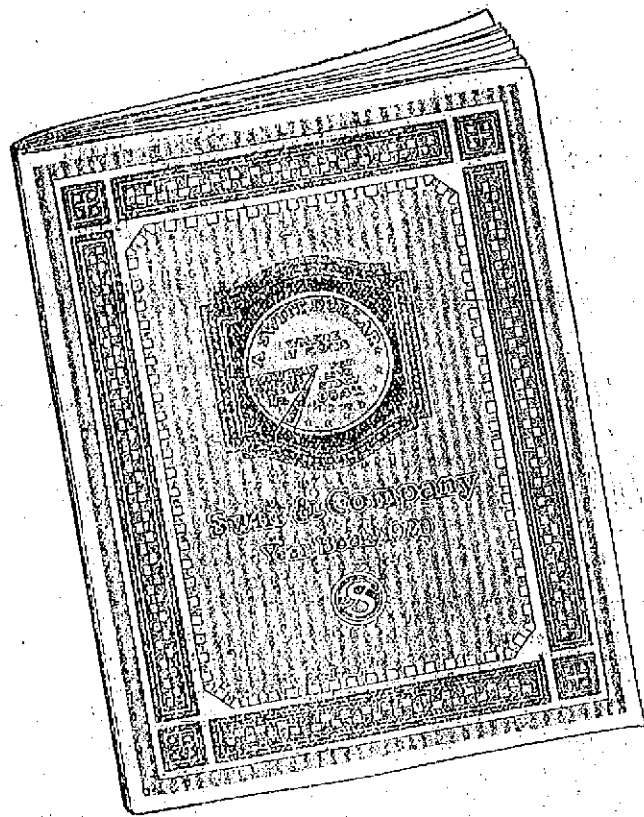

Results thus far secured by the Service and Information Branch of the War Department in establishing new welfare committees for discharged men throughout the country have been most successful, and the work of the earlier employment bureaus throughout the United States has been decidedly broadened. Therefore the War Department has been concerned principally with jobs for ex-service men, but under the new programme its existing employment machinery is linked up with all the activities now working for the welfare of former soldiers and sailors.

"It has been found," says Lieutenant Colonel Matthew C. Smith in a bulletin today, "that there are many soldiers who do not need a job, but who do require our help in solving their individual problems. The Government has provided abundant relief for them. In many cases the men do not know of the relief or they do not know how to go about getting it. Our problem is to bring the information to the men and have them reach the Government agents who can give them the help they need."

In this work it is necessary to work through those who have contact with the men. The welfare, civic and financial agencies have this contact, and it is brought into cooperation with the Federal agencies, they make the connecting link between the two.

"Some men are ignorant of the fact that they are in line for Government assistance, and others who know that they are entitled to benefits do not understand how to go about securing them. Others have been careless, and many letters are left unheeded by the men which would speedily bring a solution in special cases, if answered."

## The Swift Year Book is Out Send for Your Copy

Swift & Company was a favorite topic of conversation last year.

Committees investigated it, commissions attacked it, law makers threatened it, many condemned it.

Presently people began to think about it; began to realize that Swift & Company was performing a necessary service in a big, efficient way; began to wonder whether it could be done as well in any other way.

Read what Swift & Company did last year, and what it meant to you, in the Swift & Company Year Book, just issued.

It's a fascinating narrative—simple facts in simple words. There is one ready for you. Send for it.

Address Swift & Company, Union Stock Yards, Chicago

### DANIELS ADVOCATES AVIATION CARRIERS

Washington, Feb. 9.—Construction of three aviation carriers and four destroyer tenders was recommended to Congress yesterday by Secretary Daniels.

"Innovation born as the result of the war indicate an urgent necessity for the two classes of vessels at this time," the secretary wrote. "To insure to aviation the mobility which belongs to it as a naval arm, tenders and carriers must be provided. A tender will serve as a portable aviation base. Carriers are urgently necessary which will transport planes, and from the decks of which planes may fly. Without these no progress in naval aviation is possible."

"Destroyer tenders accompany the fleet and effect the necessary repairs on the spot and issue stores, thus obviating the necessity of sending destroyers to navy yards for these purposes."

## VERIFICATION OF SAVINGS BANK DEPOSITORS' BOOKS

MONTH OF FEBRUARY, 1920.

The Law of This State Provides that—

"It shall be the duty of every depositor in any savings bank, and of every shareholder of any building and loan association, to present his book for verification with the books of the bank or association when notified so to do, at the times fixed by the bank commissioners."

The Bank Commissioners have selected the Month of February in this year as the time for such verification.

Depositors of the undersigned savings banks are requested to present their deposit books, or to forward the same by mail or otherwise, to the examiners at the bank at as early a date as convenient, if possible during the first two weeks, and so avoid having a personal request mailed. The book will be immediately returned after comparison with the account as kept by the bank.

## AMERICA'S EXCESSIVE TAX SUBSIDIES

The enormity of American tax exemptions may be demonstrated in three ways: first, by reference to the direct losses of public revenue; second, by the increased value of tax-exempt securities; third, by reference to the practice and experience of foreign countries. These points are discussed as follows in a statement from the Savings Bank Section, American Bankers Association.

On the first point, Professor George E. Bingham recently showed (Washington University Studies, page 24) that even in the total value of state and municipal bonds is only \$4,000,000,000 at an average rate of 4 percent and all held by individuals receiving annual incomes of \$50,000 the annual loss to the national treasury from their tax exemption is \$25,230,000. If these bond holders had annual incomes amounting individually to \$1,000,000, the annual loss to the national government would be \$112,300,000. He also notes that the farm mortgage indebtedness in the United States is in excess of \$4,000,000,000 and a further loss, equal to that on municipal bonds, will result to the federal government if agriculture is refinanced by tax-exempt funds as is now expected.

Second, the extent to which tax-exempt public bonds and private securities which are subsidized, as "Federal instrumentality" are replacing the taxable securities issued for the support of commerce, industry, housing and foreign trade, has not yet been measured except by reference to the increasing discrepancy in market prices.

The market for tax-exempt securities is both established and fostered by the income tax policy of the government as to large incomes. At the same time the government urges the investment of small incomes in its own non-taxable securities. The taxable loans now required for the re-establishment of the industries upon which the country's prosperity depends are left to compete with non-taxable public credits and Federalized "instrumentalities" under the political conditions of a pre-election year.

It is well recognized that the tax policies of the federal government (1) have not tended to promote either governmental or individual economy,

or even efficiency; (2) they have directly created a preference for those securities which promise large but deferred profits; and (3) are exerting a powerful influence toward government ownership not only of transportation but of other industries which offer only moderate profits and which cannot be quickly refinanced on a high interest basis without being charged with profiteering.

Each of these three points further "inflation" depreciates the value of our savings and increases the economic burden of those incomes which are still at pre-war standards.

Third, no such sound system of public finance has been adopted in England, and when carried to its economic extreme, as in Canada, it has been abandoned.

As to England, a recent communication to the Savings Bank Section of the American Bankers Association by Professor Robert Murray Haig of Columbia University, a well-known authority on taxation and the expert selected by the American Economic Association to make a personal investigation of the tax situation in England during the past summer, says: "Residents of Great Britain are taxable on interest on securities issued during the war, as well as before the war. The only resort to the policy of exempting interest on government securities from its income tax is in the case of bonds purchased by non-residents. However, investments by business concerns in war bonds are not considered vested capital for the purpose of the excess profits duty, unless the investment is only temporary in nature."

As to the situation in Canada, which recently over-subscribed its last issue of war bonds although they were fully taxable and previous issues had been exempt, the American Bankers Association is advised by Henry T. Ross, Secretary of the Canadian Bankers Association:

"We are not likely to have in Canada any further extensions of the tax exemption privilege accorded to the earlier bond issues of the Dominion in connection with the war. The war issue made this year in which over \$600,000,000 was subscribed is not tax exempt. This taxable federal issue marks definitely the change in policy. There is nothing, either, corresponding to the bonds of your Federal land banks and joint stock land banks. We have so far escaped that form of inflation."

The leopard will kill for more love of slaughter and leave its victims unscathed.

## AMERICAN LEAGUE SCHEDULE OUT

Season Opens This Year on April 14th.

(By Associated Press)

Chicago, Feb. 10.—The American League baseball schedule will open on April 11 and close October 3, according to the official 1920 schedule released tonight by B. B. Johnson, president of the league. The schedule shows a restoration of the 154 game plan, which was curtailed last season because of the world war. An innovation in this year's schedule is the listing of Sunday games at Washington and New York. This is the first time in the history of the league that this has been done at the time the schedule was drafted. The world war was responsible for this. Last season games were permitted in Washington and New York, but the schedule made no provision for these contests. As a result the schedule was revised and a number of games were advanced in order to play on the Sabbath.

The four western clubs will open in the west while the clubs of the east will inaugurate the season at the eastern end of the circuit.

Opening games are listed as follows: Detroit at Chicago; St. Louis at Cleveland; New York at Philadelphia; Washington at Boston.

Boston is scheduled to close the season before the other clubs. The final curtain for the Red Sox will be rung down on September 23. A double header, with Washington billed as the opponent is on the program for that day. The following day, Sept. 25, New York will close its season at Philadelphia. The last of the eastern clubs to quit for the season are the Senators and the Athletics, who meet at Philadelphia on October 2.

The four western clubs are scheduled to close the season on Sunday, Oct. 4. The White Sox will finish at St. Louis and Cleveland is slated to close at Detroit.

The schedule as in former years, calls for three swings around the circuit.

Detroit after opening at Chicago will go to Cleveland, and then return home on April 22 for its first game at home with Cleveland as an opponent on the same day, following its series at Cleveland and Chicago. New York, after playing the bid off at Philadelphia will go to Boston for a series and then to the Polo Grounds to play the first home game with the Athletics as the attraction on April 22. The Washington team will get their first glimpse of the circuit on April 22, when, after a series in Philadelphia and Boston, they come here to meet the Red Sox.

Washington has drawn the plum in regard to the greatest number of Sunday games. The Senators have been given 15 Sunday dates. Chicago and Detroit each have 13, while St. Louis, Cleveland and New York have been awarded 12 apiece. Philadelphia and Boston have no Sunday games at home, because baseball is forbidden there on the Sabbath.

Boston, Detroit and Washington all share alike in the distribution of Saturday games, each being scheduled to play 13 week-end games at home. The other five clubs have been given 12 Saturdays each at home.

Independence Day, July 4, falling on Sunday, the schedule makers have arranged holiday bills for Monday, July 5. Games on that day will be played at Chicago, Detroit, Washington and Philadelphia.

Decoration Day, May 30, also falling on a Sunday, enabled the framers of the chart to book holiday bills for the following day. These games will be played at St. Louis, Cleveland, New York and Boston.

The Red Sox have been awarded a holiday bill for April 19—Bunker Hill Day.

Chicago, Cleveland, Washington and New York are scheduled to play their last day games at home on Sept. 6.

There are four conflicting dates with the National League, and these are in Chicago on May 9, June 27, Sept. 5, and Sept. 26, when the Chicago Cubs are scheduled to play at home.

The Western clubs start their invasion of the East on May 11. Chicago will be at New York; St. Louis at Philadelphia; Cleveland at Boston and Detroit at Washington.

The Eastern clubs will make their first Western trip on June 5, with Boston appearing at Chicago, Washington at St. Louis, New York at Detroit, and Philadelphia at Cleveland.

### "THE OUTRAGEOUS" MRS. PALMER

Since the opening night the Arlington theatre has witnessed the most brilliant dramatic performances in its history, marking John Craig's special production of the "Outrageous" Mrs. Palmer, in which Mary Young, who plays the title role is supported by the strongest company ever organized under Mr. Craig's direction. The Arlington has been crowded at every performance and the enthusiasm has been intense. Every production concerning the success of the new production of Harry O'Brien's remarkable play has so far been fulfilled. The play itself with its emotional power and its brilliancy of dialogue, appeal to all kinds of players. The story of the

seemingly only son separated from his father and then unselfishly sacrifices his health when he returns from France severely wounded, abundantly in human interest. The role of Mrs. Palmer gives Miss Young the greatest opportunity of her career and her performance marks her highest achievement. It is a wonderful role and, according to Mr. Gribble, Miss Young plays it perfectly. But there are many other roles in this capital dramatic entertainment and practically every member of the excellent supporting company has scored a success and shared the honors of the numerous curtain calls which have attended every performance. Mr. Craig, Charles Pickford, Miriam Doyle, Eugene Hines, Merna D'Amico, Robert L. Taylor, Cora Witherspoon, Ned Hamilton and Keith Macaulay Ross, all have impressive parts in the greatest dramatic success produced at the Arlington since the days of "Common Clay". This is the same company that will appear in the play when it is presented later at leading theatres in Chicago and New York, but a popular sale of prices is still in force at the Arlington. There are matinees on Wednesday and Saturday, Arlington Theatre, Boston.

### GRANGE BODIES WILL CO-OPERATE

Invitations have been received to hold sessions of the winter festivals under the auspices of the Grange, the Department of Agriculture and the Bureau of Markets, co-operating with the Pomona Grange with Gravel county at Wakefield, East Rockingham, Hillsborough county at Bedford, Lake and Valley, Mascota Valley at Canaan, Union, Upper Cop at Colbrook and West Rockingham, East Rockingham Pomona will meet with Rockingham at Blythe, at the Town hall Wednesday. At the closed session at 10.30 a. m. the fifth session will be conferred and there will be a general discussion of "Household Management."

At the afternoon session at two o'clock the public is cordially invited. There will be an exchange of greetings by Hattie A. Schoff, master of

## TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicine but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me."—Mrs. LETTIE BANAY, 408 East 4th St., Rochester, Indiana.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Baney.

Rockingham and James A. Tutts, Jr., master of the Pomona current events, by Steward E. Town of Exeter, county treasurer, address, "Food and Health" by Mrs. Helen E. McLaughlin, county home demonstration agent, Piscataqua of Newington, will furnish the following entertaining numbers: Heddington, Mrs. Louis Boone and Mrs. Edith G. Hoyt and vocal solos by Mrs. Catherine H. Badger.

The Boston & Maine gave most of the photo during the last storm trying to keep snowplows on the track.

## PRESS NOW HAS WIRELESS STATIONS

Hecht, Feb. 9.—All the press organizations of Germany, the representatives of all publisher's organizations, the official Wolff Bureau, the Dutch news agency "Transocean" and the German wireless propaganda service, gathered in Berlin recently for a discussion of the wireless possibilities in Germany for transmitting news.

Dr. Hredow, who conducted the conference, that there have been distributed daily a report of the Assembly at Weimar and news summaries by the Wolff Bureau and Dutch agency. The news messages have been received by the government wireless stations at various points in the country and turned over to the papers. The conference concluded that the wireless is not yet able to supply the full needs of the press nor anywhere near it for the wireless stations are overloaded with personal messages. However, they decided that the wireless is capable of handling brief flashes on important stories which are paralleled by telephone or telegraphed by the news agencies, so that the news is available for a larger circle of people.

The conference was convened, however, that the spreading of such messages can be done in large numbers only when the wireless telephone has been installed, as only in this way the hiring of special wireless operators can be avoided. They decided that for the present the sending of news will have to continue by telegraph, for it was too expensive to fit up each telegraph office with wireless equipment. In a few weeks the group will meet again to discuss any further technical experiments with wireless telephony.

### TO PERPETUATE WASHINGTON'S HOME IN ENGLAND

Manchester, England, Feb. 10.—Members of the Bulgrave Society met here recently to inaugurate a fund for the restoration and maintenance of Bulgrave Manor, George Washington's English ancestral home.

## When You Get

up "fired as a dog" and sleep is full of ugly dreams you need

## BEECHAM'S PILLS

Fatigue is the result of poisons produced by exercise or failure to digest food properly, and eliminate it promptly with the aid of liver and kidneys.

Members of the Bulgrave Society met here recently to inaugurate a fund for the restoration and maintenance of Bulgrave Manor, George Washington's English ancestral home. The mansion was bought in 1914 as a memorial to Washington by the English Peace Centenary Committee in celebration of the hundred years since the signing of the Declaration of Independence between the United States and Britain. An endowment in needed for repairs and furniture. Toward this, the Bulgrave Institute of America, contributed ten thousand pounds. Five thousand pounds have been raised by London, and Manchester hopes to furnish the balance of 10,000 pounds.

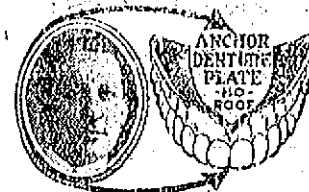

# Modern Dentistry AT A SAVING

## Good Work and the Best Material

Remember--If I Hurt You, Don't Pay Me

You pay more many places, but it's doubtful if you can get any better at any price.

A complete time-tried organization that has been getting the "lion's share" of the dental business of Portsmouth.

Free examination, both day and night. The finest equipment, the best of lady attendants. Conveniently located to all car lines. Trained nurse.

## Examination and Estimate Free

Our dentists will examine your teeth free and tell you just what dental work you require; will also tell you the best and most lasting way to have your dental work done, also just how much it will cost. They will give you a chart showing the teeth that need attention. This examination will be free and will be done by an expert registered graduate dentist.

## Best Plate Red Rubber \$8.00

We make sets of teeth that fit tight, look natural and are very often more satisfactory than your natural teeth.

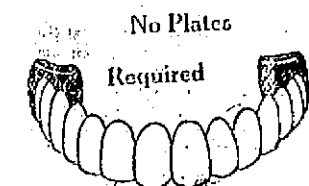

We have expert dentists that make sets of teeth and do nothing else; of course, they become experts on making teeth. Special rooms are equipped and are used only for the making of sets of teeth.

If you wish to have a set of teeth, we would be pleased to show you samples made up by us. Would advise you as to the best teeth for your mouth, and tell you just what they would cost.

We very often put gold teeth and gold fillings in our sets of teeth to make them look more natural.

## U. S. SHIPPING NEEDS URGED

### Cheaper Vessels Wanted to Meet Competition.

Washington, Feb. 9.—The future of the American merchant marine engaged the attention here today of both the Senate and the House of Representatives, who are holding a conference of representatives of labor unions concerned in shipping construction, with a combined membership of \$500,000, to make recommendations for the perpetuation of the American flag in the commerce of the nations.

While the Senate Commerce Committee continued its hearings in the formation of a shipping policy bill, with supporters testifying, a conference of representatives of labor unions concerned in shipping construction, with a combined membership of \$500,000, to make recommendations for the perpetuation of the American flag in the commerce of the nations.

Secretary Daniels was the principal speaker at the conference. He assured his hearers that some way would be found to operate merchant tonnage produced during or as a result of the war, and to restore the American commercial fleet to the place they held 22 years ago. National prosperity, he said, was dependent upon carrying American goods to American bottoms.

Mr. Daniels also reiterated his position as to the strength of the battle fleet and said that work on the naval building program would not be stopped. As to American naval power, he said:

"No man is a stronger advocate of the league than I, but in the present perturbed condition of the world, the league must have a police force on the seas, and I want the United States to have a force in that police force as large as any other nation."

Without this league, he added, the American navy should be "incomparably greater" than any other.

Mr. H. Raymond, president of the American Steamship Owners' Association, said before the Senate committee that the sale price for government war-built craft do not exceed \$100 a ton. Otherwise, he said, without exemption from excess profits taxes for a period of years, competition with foreign craft sold at \$20 a ton will be impossible.

"England still has in the neighborhood of 20,000,000 tons of ocean vessels built before the war at \$70 a ton," he said.

"What the United States should do now," declared P. A. S. Franklin, the president of the International Mercantile Marine, who followed Raymond, "is not to look so much about the price of individual ships it owns, but to establish shipping trade with strong concerns so situated financial-

ly that they would be able to get capital. I endorse Mr. Raymond's proposition entirely."

**FRAZEE AND LANNIN AT LOGGERS' HEADS OVER RED SOX SALE DEAL**

Boston, Feb. 9.—Action looking toward the sale by auction of 3000 shares of the capital stock of the Fenway Realty Trust, owners of Fenway Park, home of the Boston Americans, was announced tonight by attorneys for Joseph J. Lannin, former owner of the Red Sox. The ownership of the baseball club is not involved.

The auction sale is set for March 3. It is the result of a dispute between Mr. Lannin and Harry H. Frazee, president of the Red Sox, over the terms of the sale of the club by Mr. Lannin to Mr. Frazee and Hugh J. Ward, in November, 1915.

In a statement tonight, Fowler, Daniel and Kenney, attorneys for Mr. Lannin, said he took as part of the purchase money, the note of Messrs. Frazee and Ward for \$202,000, secured by a pledge of the entire issue of the capital stock of the Fenway Realty Trust, subject to mortgage bonds aggregating \$125,000. The note became due on November 1, last.

Due and legal demand was made for its payment, the statement says "but in spite of the repeated promises of Mr. Frazee, Mr. Lannin has not yet been paid nor got anything since last May in the way of either interest or principal. Refusing to wait any longer for the payment of the very substantial sum, he has been obliged to start to realize on the security."

Thomas J. Barry, attorney for Mr. Frazee, made the following statement: "Mr. Frazee has been trying since November to get Mr. Lannin to give the amount he (Lannin) owes Frazee, upon a guarantee that Lannin gave to Frazee that all debts were paid in connection with the Red Sox at the date Lannin sold. Lannin agreed to indemnify Frazee from debts due in November, 1919."

Mr. Frazee says there are outstanding debts for which he is liable of approximately \$40,000 which Lannin will not admit. Mr. Frazee will endeavor to enjoin Mr. Lannin from selling until there is an accounting between them. Any time Lannin is willing to concede to Frazee the amount that is due, Frazee is ready to pay."

#### NOTICE

Camp Schley Aux. whilst party postponed from Feb. 3 will be held in N. H. O. P. hall Thursday, Feb. 12. All tickets sold will be good for that date. H. F. 10-11

Order must be kept for vinegar but not for a beverage if it has any more alcohol than beer.

## FIRST CAR THRU TO DOVER SINCE STORM

The first car thru to Dover over the Portsmouth Dover and York electric road, since the big storm of last Thursday, was run on Tuesday at five o'clock.

The large gang of men with plows and other equipment having at last worked their way thru the high drifts and in some places thick coating of ice which had covered the entire line. Drifts in some places are as high as the cars and in other places the ice had to be all picked away from the rails.

General Manager W. G. Melton stated Tuesday evening that it was the worst storm this branch of the road had ever had. Today the crew will be transferred to Rosemary, and begin the work of cutting their way thru to York, and here they will encounter some very high drifts.

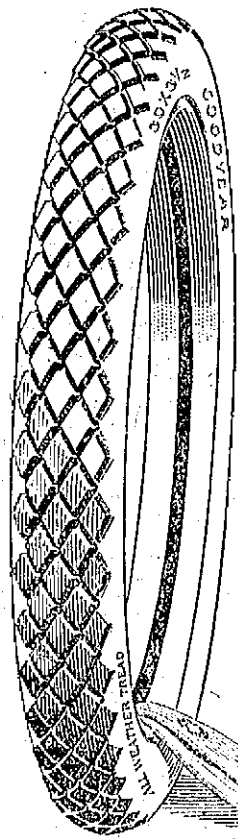

The business men of York Village and Harbor and also at the Beach have notified Mr. Melton that they are willing to help in any way possible and under the directions of O. B. Hobson a business men's brigade of fifty men has been organized and they will start Thursday to the work of clearing the tracks starting at York corner and working toward the railroad crew. At the same time a smaller crowd of men from York Beach under directions of Frank Ellis will start from the Beach shoveling along the tracks. Wherever ice is encountered the snow will be cleared to the ice and that left for the regular crew. The citizens of York are doing this to show their gratitude to Gen. Manager Melton for the excellent service he has given the town in the past two years.

Mr. Melton hopes to get the road opened by the last of the week after the worst tie up in the history of the road. The work on the P. R. & Y. division will also be opened this week by the work of clearing will go along with that on the Rosemary branch.

## COMBINATION ENGINE AGAIN ON THE JOB

The Combination Chemical which broke an axle in running to the fire on Tuesday noon, was repaired by six o'clock and ready for service. Chief Wood as soon as the fire was over supervised the repair work on the big auto and it was soon ready for service.

# Big Value in Tires for Small Cars

Back of the manufacture of Goodyear Tires for small cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3, 30x3½, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that, if you own a Ford, Chevrolet, Dort, Maxwell or other car requiring the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$20.00  
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water..... \$3.90 proof bag.

## Millionaires who take in Roomers!

PLAIN, simple country folk down in Texas went to bed one night as poor as the proverbial church mice and awoke to find themselves millionaires! But they cannot accustom themselves to their new prosperity, and they do the most extraordinary things imaginable with their newly acquired wealth. Old Jake Wells went right out and bought himself \$4.83 worth of bananas, ate them, and then just naturally died.

Mrs. Snodgrass, wife of the village doctor (who doesn't know how rich she is), built a large wing on the old homestead so she could take in more roomers!

Another old lady—whose profits quickly passed the million mark—bought "paw" a new ax so he could cut the kindling more easily. And the surprising thing about it all is that it's true.

Don't fail to read "Millionaires Made While You Wait" by Frazier Hunt, in the new *Cosmopolitan*

"Nearly everybody worth while reads *Cosmopolitan*"

### When a financier's wife pawns her jewels

You won't know until the end of the story why she did it.

But when the pretty young wife of a feeble old millionaire is seen to frequent a pawnbroker's, and then enter a cheap lodging-house, being watched by a good-looking detective—well, there's enough mystery, love, action and high finance in this unusual story to satisfy anybody.

"Her Secret"—by Will Payson—is the first of a series of adventures by Ben Bode, business detective, who—wo prophesy—is going to take rank as one of the most interesting sleuths of fiction.

### Is parent-love a menace?

Great men almost invariably have had unusual mothers or fathers who played a conspicuous part in shaping their lives. And yet, eminent psychologists tell us that the pampering love of parent for child—unless wisely directed—can do tremendous harm.

Harvey H. Hopkins has interviewed one of the greatest live specialists in America on this vital problem.

No finer, more amazing and dramatic has been written about human relationships than "The Love-Image," in the new *Cosmopolitan*.

## FIRST DEATH FROM FLU IN THIS CITY

The flu situation in this city while it has reached epidemic form, is not anywhere near alarming as that of a year ago. Dr. George Tredlek, the Health officer of the Board of Health stated on Tuesday that only a few cases are being reported by the physicians, but in conversation with the physicians he finds that there are a good number of cases, but they are not of the serious nature as the epidemic of last year.

In making an investigation as to whether it would be necessary to open an emergency hospital he finds that there are comparatively few very bad cases. A survey developed only a very few could be taken to a hospital. Some of the physicians are of the opinion that it is abating, while others are of the opinion that the peak has not been reached as yet.

So far there has been only one death from the disease in this city, one in Kittery and six at the Naval Hospital. The Board of Health while they do not think the situation is alarming, advise everybody to take all precautions and to keep in the fresh air as much as possible and keep their habits regular, plenty of sleep and eat enough. If taken ill quit at once and go to bed and take no chances.

#### BOLSHE VIKI

(Written by Edith Baldwin for the National Security League)

"What are the shrens shrekin' for?" said Percy Parlour-Red.  
"To speed the guest, to speed the guest," the Loyal Native said.  
"What makes you smile, so grim, so grim?" said Percy Parlour-Red.  
"An' thinkin' of a muzzled bound," the Loyal Native said.

For they're shippin' Bolshe Viki, you can hear the engines purr, they are weighin' up the anchor, an' the decks are all astir. They've planned a number on him, an' they've branded him a cur. An' they're shippin' Bolshe Viki in the mornin'.

"What makes the People mutter so?" said Percy Parlour-Red.  
"They're wakin' up, they're wakin' up," the Loyal Native said.  
"What makes that fellow gub and

quike?" said Percy Parlour-Red.  
"It's his turn next, it's his turn next," the Loyal Native said.

They are shippin' Bolshe Viki to a port beyond our ken. They have taken Bolshe Viki with his poisoned tongue and pen. And he'll sail in half a minute, the despised of decent men. O they're shippin' Bolshe Viki in the mornin'!

"His speech was very fine to hear," said Percy Parlour-Red.  
"My ears are deaf to traitor-talk," the Loyal Native said.  
"I shook his hand not long ago," said Percy Parlour-Red.  
"Then wash your own of alien dirt," the Loyal Native said.

They are shippin' Bolshe Viki to a far, unknown place. For he smirched the flag which welcomed him, and spat in Freedom's face. And there's thousands like him still at large—America's disgrace. While they're shippin' Bolshe Viki in the mornin'!

"What's that like blood against the sun?" said Percy Parlour-Red.  
"The Bolshe Viki brand of flag," the Loyal Native said.  
"What's that that whimpers from the deck?" said Percy Parlour-Red.  
"The Yellow Streak, that's sailin' now," the Loyal Native said.  
For they're done with Bolshe Viki, an' his serpent breed must go. The People, they are thinkin' hard—but thinkin' very slow! Hot America must arm herself to fight an' unclean foe. An' be shippin' Bolshe Viki every mornin'!

## P. A. C. HOLD SPECIAL MEETING

A special meeting of the Portsmouth Athletic Club was held on Tuesday evening and President Ewald read the resignation of Governor J. H. Bartlett as a member of the Board of Directors. It was accepted and Arthur W. Horton was elected in his place.

Three new members were voted in. Plenty of singing, dancing, jokes, and good vaudeville at the Allied Veteran's Minstrel Feb. 16 and 17.

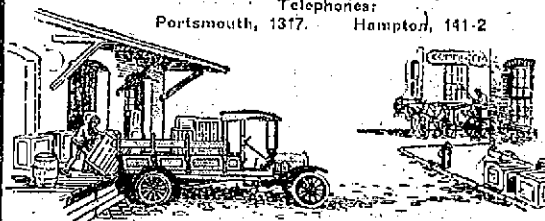

and the club now has its greatest membership reported that everything was in readiness for Friday evening, and with a The committee on the annual ball very large sale of tickets.

# Ford

THE UNIVERSAL CAR

The Ford One Ton Truck is serving business just as faithfully and economically as does the Ford Touring Car serve all the people faithfully and economically. The Ford Truck is a necessity to the grocer both in delivering goods and in bringing goods from the stations, docks and from the country. It is an ideal motor car because there isn't a want of the farmer or business man that it doesn't supply in the way of quick transportation at a minimum expense. Come in, examine the Truck, and let us talk over the subject.
